ARMOR WATCH ULTRA USER GUIDE	
Preparation Before Use For the first use, please press and hold the power button to turn it on. If it cannot be turned on, please charge the watch first. Sports Power/Home Super Torch Custom Key Heartrate Sensor Speaker Charging Contacts	Outdoor run GPS GO Tap to start workout Barometric altimeter 980 hPa Current barometric pressure Offline Maps Access preloaded full-color terrain and topographic maps directly on the device. The system provides real-time GPS tracking and off-course alerts to ensure accurate navigation during outdoor expeditions or urban travel, even without a mobile data connection. WhatsApp Message Hub: View and manage up to 10 recent WhatsApp notifications. Use the watch's voice-to-text, quick replies, or emojis to respond directly from your wrist instead of using your phone. *This feature is currently available for Android only; it is not supported on iOS devices.
App Download Method Android: Search for "Armor Watch" on Google Play to download and install the app. Apple: Search for "Armor Watch" through the app store to download and install the app. Note: Adapt to Android 10.0 or IOS 9.0 and above systems. Scan code: Scan the QR code to download and install the app. 	FCC Caution Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This Product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.
Watch and app Connection Long press the power button to start, please make sure that the bluetooth of the mobile phone is turned on. Open the Armor Watch app on the mobile phone, sign in to the app and follow the prompts to finish pairing. After the app is successfully connected to the watch, it will automatically enter the homepage. Link to Strava: Navigate to Third-party services from the profile tab, select Strava, and tap Not Linked to authorize the connection using your account email and password.	NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Watch Operating Instructions Power/Home Button: Long press the power button to turn on/off/restart/SOS call. Short press to unlock/back to home screen. Long Press on the Dial Interface: Enter the dial switching. Slide down the Dial Interface: Enter the shortcut menu settings. Swipe up the Dial Interface: Enter the notifications. Swipe Left on the Dial Interface: To cycle through functional widgets.	-- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body. CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
