Connecting with your device:

- Keep your bluetooth device with in 3 Ft. while pairing.
- Press the POWER button of TAGG inferno earphone for 3 secs.
- Blue and Red LED will blink and earphone is in the pairing mode.
- Now search for available bluetooth devices in your Mobile/Laptop/iPad and select TAGG inferno from the list of available devices.
- If prompted, enter password or PIN required "0000".
- If prompted by your mobile phone to connect, click "YES".
- After successfully connecting Blue LED will flash twice after every 4 secs.

How to charge:

- Connect to power using Micro USB.
- To better protect the battery life, kindly use only the charging cable provided with the earphone .
- Allow 1-2 hours to completely charge the earphone.

LED Indications:

- While charging - Red LED is On.
- When completely charged - Blue LED is On.
- When battery is low, Red LED blinks every four seconds twice and the voice prompt will let you know that battery status.
- Pairing mode- Blue and Red LED starts flashing.

Reconnect the earphone:

- If the connection is lost, TAGG inferno will try to reconnect automatically.
- If it does not reconnect, kindly press the POWER button for 3 secs and reconnect manually through your mobile bluetooth.

Common problems and solutions:

- Mobile can't find the earphone:
- Kindly restart your phone and the earphone.

There's always noise and the bluetooth keeps disconnecting:

- The earphones needs to be charged.
- Make sure you are not beyond the signal distance.

Bluetooth is connected but you are unable to listen to music:

- Check your device setting to adjust the sound on hands free mode.
- Some devices require you to select the device twice.
- Some devices do not have complete stereo bluetooth, kindly connect the earphone with another device to check if it is functioning properly.

Bluetooth password:

- "0000"

Maximum distance:

- 20 ft.

Red LED is not ON while charging:

- This could be due to lack of use of earphone. It needs to be charged for 30 min before the Red LED occurs.

Restore the factory setting:

- To restore factory settings, hold the POWER button for about three seconds when charging until the Red and Blue LED flashes three times.

FCC information:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
