Subject: Professional Installation Declaration

FCC ID: 2ATD7-HL3210F

To Whom it May Concern:

We, (Applicant) hereby declare that TVWS device Model number HL 3210 is intended for professional installation. Furthermore;

- (1) To qualify for professional installation, please explain why the hardware is not readily available to average consumer.
Description: The FCC requires Fixed WSD to be installed by a professional installer to ensure the installation is properly done and to prevent the device from being tempered with wrong / inaccurate geo-location information for security reasons. The information can only be entered by a professional installer at device registration.
- (2) Applicant must ensure device cannot be sold retail to the general public or by mail order.
Description: This product will not be sold directly to the general public through retail store or by mail order. It will be sold to authorized dealers or installers only.
- (3) Describe what is unique, sophisticated, complex, or specialized about your equipment which REQUIRES it to be installed by a professional installer?
Description: Due to the unique functions of this device, for example, the device registration information including device location must be entered by the professional installer, therefore this outdoor TVWS device must need special trained professional in configuring and installing the product. More details please refer to user manual exhibit.
- (4) Applicant intended use is generally not for the general public.
Description:
This device is not a normal retail one, as the user have to apply from operator first and the service provider will have professional installer to install the equipment. Therefore it is not intended for general public.
- (5) Installation must be controlled.
Description:
Without an agreement with operator, end user is not possible to get this device and installed.
- (6) Installed by licensed professionals. (EUT sold to dealer who hire installers)
Description: This product will be sold to authorized dealer or installer who has trained professional or hire such professional who has been trained in configuring and installing the product.
- (7) Installation requires special training (special programming, access to keypad, field strength measurements made)

Description: A training in the installation, configuration and management of this device is required so that the installer will understand how to install this product and how to configure the parameters and follow the user manual.

If you should have any question(s) regarding the above declaration, please do not hesitate to contact us.

Sincerely,

Heng Pan, CEO
