

Solder Board-Component View 9	 A photograph of a green printed circuit board (PCB) component, labeled '9020-B10-1R-03' and 'RoHS', placed on a blue textured surface. The component features various electronic components including resistors, capacitors, and integrated circuits. It has two white connectors on the left side. A vertical ruler on the left shows centimeters from 1 to 9, and a horizontal ruler below shows millimeters from 0.5 to 8. The component is approximately 4 cm high and 3 cm wide.
Solder Board-Component View 10	 A photograph of a small, square, yellowish-gold component, labeled '9020-B2-TS-01' and 'RoHS', placed on a blue textured surface. The component has a central square opening and two small circular holes on the left side. A vertical ruler on the left shows centimeters from 1 to 7, and a horizontal ruler below shows millimeters from 0.5 to 6. The component is approximately 1 cm high and 1 cm wide.

Solder Board-Component View 11	 A photograph of a small, rectangular green printed circuit board (PCB) component. The component is positioned between two metal rulers. The ruler on the left is marked in centimeters (1 to 7) and millimeters (0.5 mm). The ruler on the right is marked in millimeters (1 to 7). The component has several small, silver-colored solder joints and a small white component. Text on the component includes "10-51-28-Q208", "MS 5180 3102", and "MARK1".
Solder Board-Component View 12	 A photograph of a circular green printed circuit board (PCB) component. The component is positioned between two metal rulers. The ruler on the left is marked in centimeters (1 to 8) and millimeters (0.5 mm). The ruler on the right is marked in millimeters (1 to 8). The component has a central circular hole and several small, silver-colored solder joints. Text on the component includes "9020-B10-CL-01", "2019.11.04", "MARK2", "9020-B10-CL-01", "E360487", "P085", "SX-31", and "2208".

Solder Board-Component View 13	 A circular green printed circuit board (PCB) is shown next to a ruler. The PCB has eight small, square, yellow LEDs mounted around its perimeter. Each LED is labeled with a code: LEO4, LEO1, LEO2, MARK4, LEO3, LEO6, LEO5, and MARK3. The ruler shows the PCB is approximately 4.5 cm in diameter. The background is a blue textured surface.
Solder Board-Component View 14	 A rectangular black printed circuit board (PCB) is shown next to a ruler. The PCB is populated with various electronic components, including a large central chip, several smaller chips, and numerous surface-mount components. It has four gold-plated circular pads at the corners. The ruler indicates the PCB is approximately 6 cm wide and 4 cm high. The background is a blue textured surface.

Solder Board-Component View 15	 A photograph of a small, square, black printed circuit board (PCB) component. The component features a central square lens, likely for a camera or sensor. It has several gold-colored solder pads around its perimeter and some smaller components on the right side. The component is placed on a blue textured surface. A metal ruler is positioned vertically to the left of the component, showing a scale from 1 to 9 cm. Another metal ruler is positioned horizontally below the component, showing a scale from 1 to 9 mm. The component is labeled "GH-EBNH-F0" and "2.1.3.3" at the bottom.
Solder Board-Component View 16	 A photograph of the same small, square, black printed circuit board (PCB) component as in View 15. In this view, the central square lens is covered by a square orange tape. The component has the same gold-colored solder pads and components as in View 15. It is placed on a blue textured surface. A metal ruler is positioned vertically to the left of the component, showing a scale from 1 to 9 cm. Another metal ruler is positioned horizontally below the component, showing a scale from 1 to 9 mm. The component is labeled "GH-EBNH-F0" and "2.1.3.3" at the bottom.

Solder Board-Component View 17	 A photograph of a small, rectangular black printed circuit board (PCB) with various electronic components. The board is positioned next to a metal ruler for scale. The ruler has markings in centimeters (0 to 9) and millimeters (0.5 mm to 1 mm). The PCB features several gold-colored circular pads, a central integrated circuit, and various surface-mounted components. The background is a blue textured surface.
Solder Board-Component View 18	 A photograph of a small, rectangular green printed circuit board (PCB) with various electronic components. The board is positioned next to a metal ruler for scale. The ruler has markings in centimeters (0 to 9) and millimeters (0.5 mm to 1 mm). The PCB features several gold-colored circular pads, a central integrated circuit, and various surface-mounted components. The background is a blue textured surface.

Solder Board-Component View 19	 A photograph of a small green printed circuit board (PCB) component, labeled 'TC-2B', '94V-0', and 'E131175'. The component is rectangular with four mounting holes at the corners and a series of solder pads along one edge. It is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters (0 to 9) and millimeters (0.5 mm to 9 mm).
Solder Board-Component View 20	 A photograph of a larger green printed circuit board (PCB) component, labeled 'MARK1', 'MARK2', and '2223'. The component features a grid of circular solder pads, each with a number (1 through 12) and a label (UP, DOWN, LEFT, RIGHT). It is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters (0 to 12) and millimeters (0.5 mm to 14 mm).
