

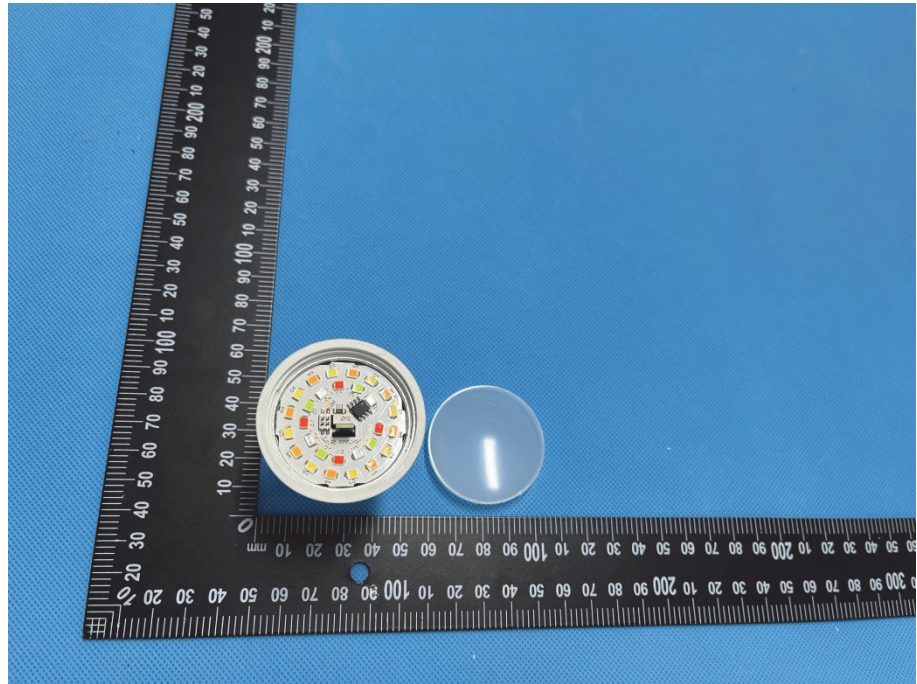

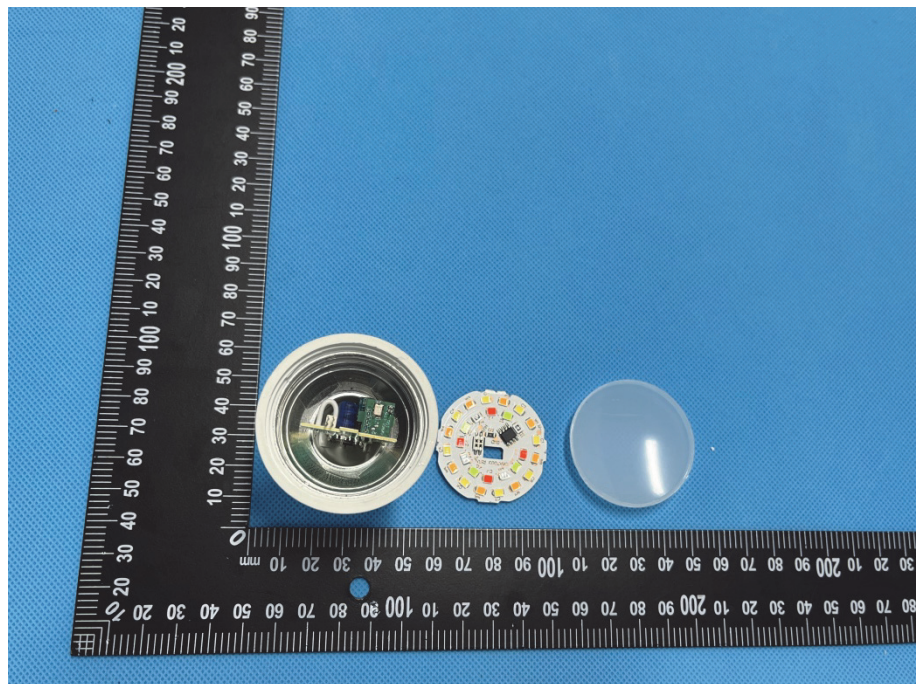

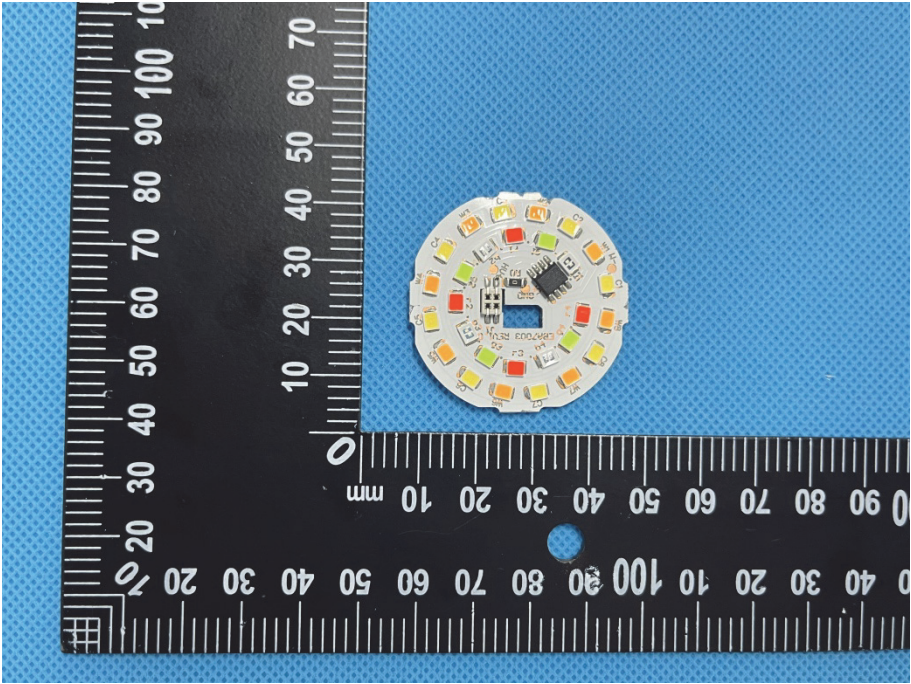

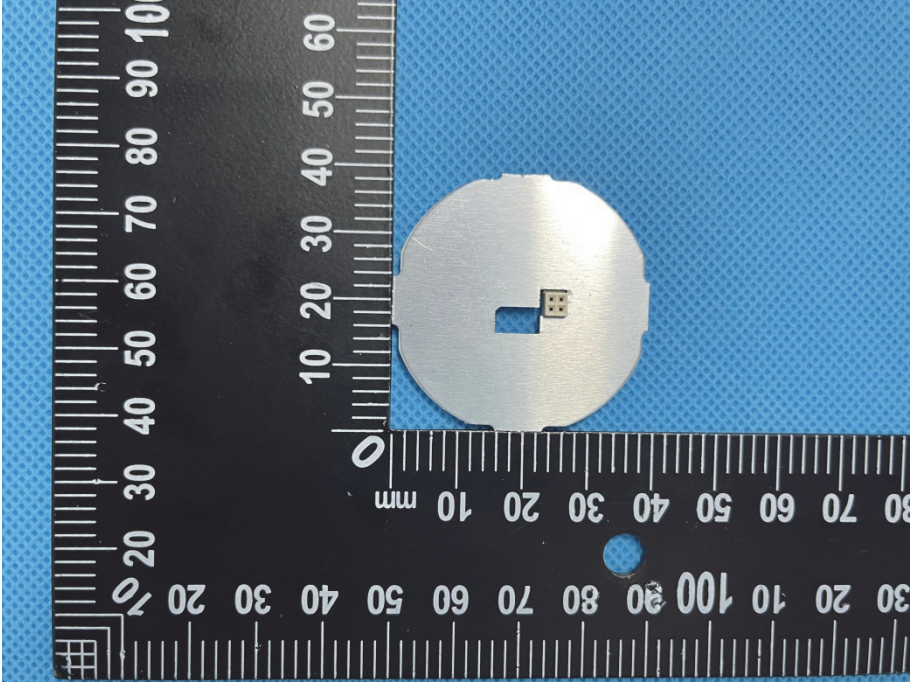

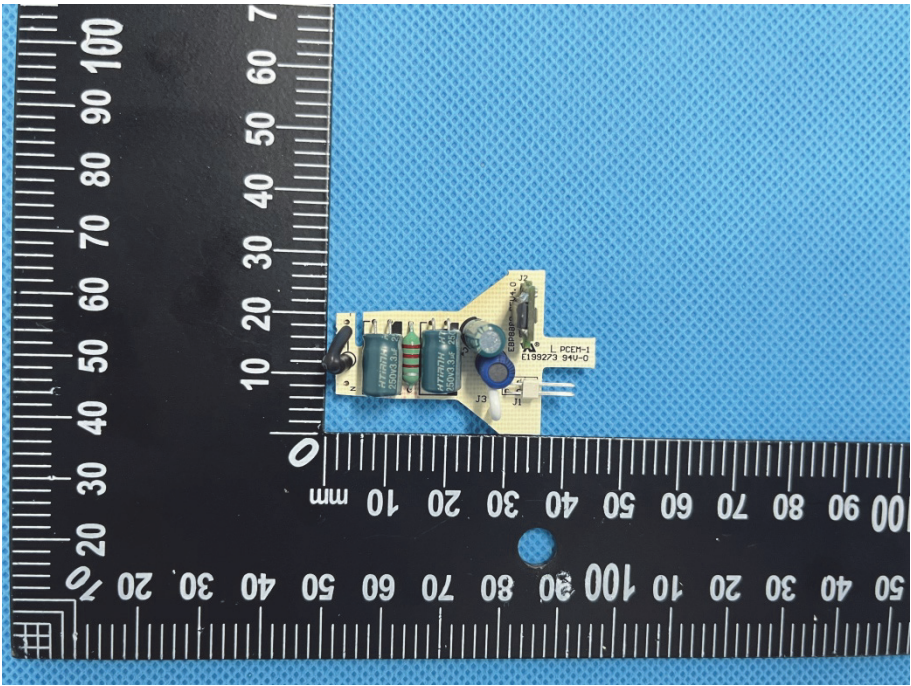

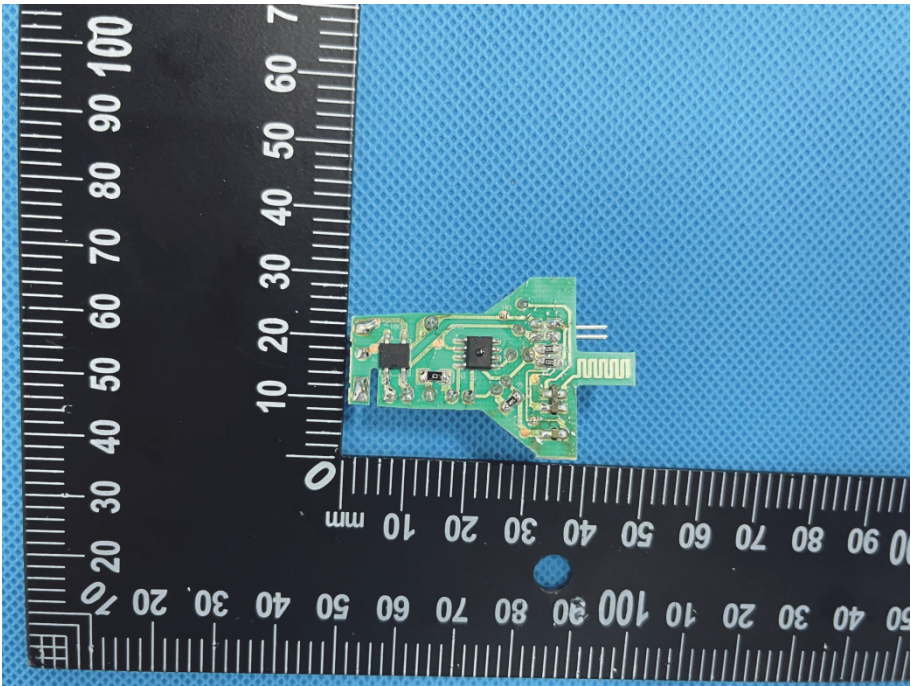

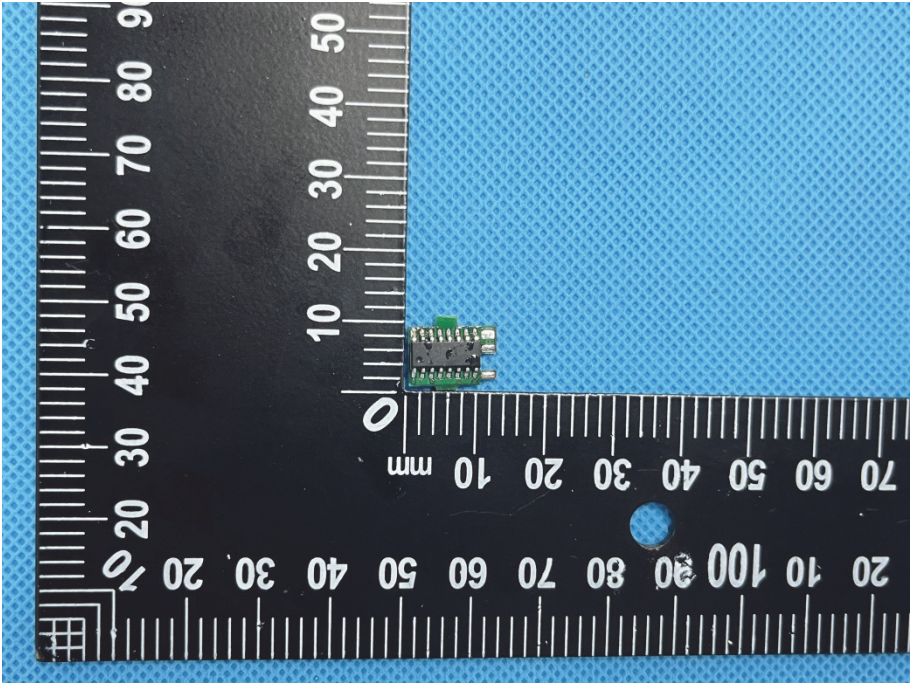

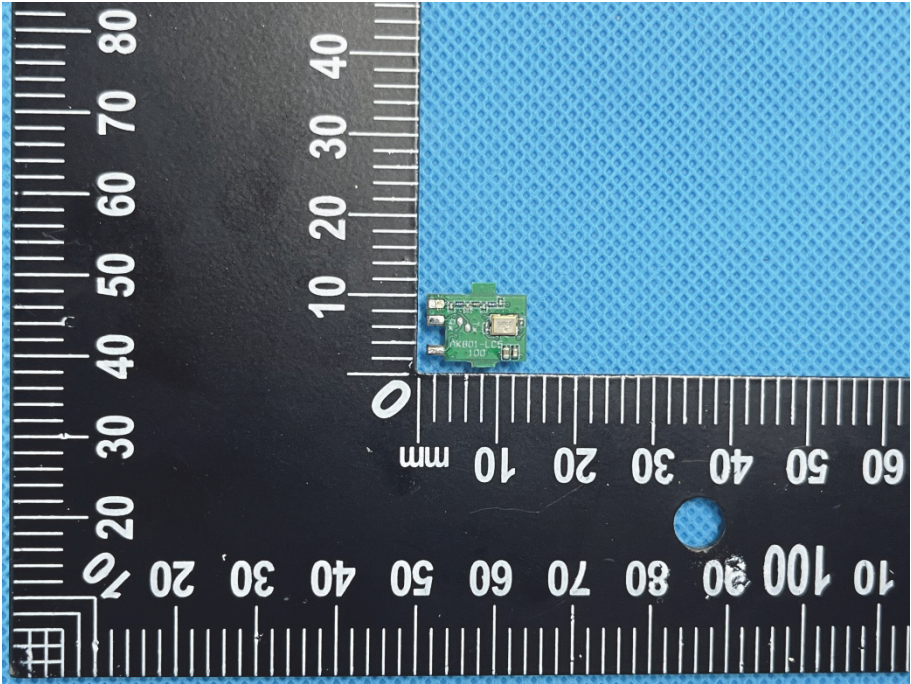

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1****EUT Housing and
Board View 2**

Solder Board-Component View 1	 A circular solder board component is shown against a blue background. The component is a circular metal disc with a central square hole and a small rectangular cutout. It is populated with various electronic components, including a central black chip, several small yellow and red components, and numerous small surface-mount components. A black ruler with white markings is placed to the left and bottom of the component, showing measurements in millimeters.
Solder Board-Component View 2	 A circular solder board component is shown against a blue background. The component is a circular metal disc with a central square hole and a small rectangular cutout. It is populated with various electronic components, including a central black chip, several small yellow and red components, and numerous small surface-mount components. A black ruler with white markings is placed to the left and bottom of the component, showing measurements in millimeters.

Solder Board-Component View 3	 A photograph of a small electronic component, likely a power MOSFET, mounted on a yellow PCB. The component is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component has several pins and a small label with text including "L PCDM-1" and "1199273 949-0".
Solder Board-Component View 4	 A photograph of the same electronic component from a different angle, showing the underside of the yellow PCB. The component is mounted on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component has several pins and a small label with text including "L PCDM-1" and "1199273 949-0".
