AIR PURIFIER

INSTRUCTION MANUAL

Model: Cami

01/POINTS FOR ATTENTION

Using Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and(2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

01

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Before using, please read this user manual carefully and keep it for future reference.

06/wifi operation

Download & Registration
1. Scan the QR code to download "Smart Life" APP. You can also search "Smart Life" in either APP store or Google Play to install the APP.

2. Open the "Smart Life" APP, tap "Register" to register a Smart Life account with your phone number or E-mail. Then sign in the APP.
3. Open the "Smart Life" APP, click "add device" or tap "+" on the top right corner of the APP homepage. There are two methods to enter the page of "add device" -Add WIFI manually or search for the devices automatically.

In the homepage of add device manually, choose your type of product to enter a new homepage and ensure the indicator light of the product flashes quickly.

Add Devices in Easy Mode(Recommend):
Make sure your smart device is energized and your mobile phone is connected to your WIFI network. If the WIFI indicator of smart device does not flash, please press the Timer/WIFI Button for more than 7 seconds until the indicator light keeps flashing quickly (about 2 times per second), it means the devices is ready for configuration. Tap "+" on the top right corner of the APP, choose and click the type of your device. When appearing "Add 1 device successfully", it means the connection is completed and your device will be listed in your APP list.

Add Devices in AP Mode:

If failed in Easy Mode, users could also add devices in AP Mode. Press the Timer/WIFI Button for more than 5 seconds until the WIFI indicator light begins to flash slowly, it means flash slowly, it means the device is already for configuration in the AP Mode. Tap "+" on the top right of corner the APP. Choose and tap AP mode, then tap "Ensure the indicator flash slowly" . Then tap "Connect now" to go to the WLAN Settings interface in your mobile phone and choose the WIFI network named "Smart Life_XXXXH" to connect it. Return to the "Smart Life" APP, the connection will start automatically. When appears "Add 1 device successfully", it means the connection is completed and your device will be listed in your APP list. Now you can control your smart device via your mobile phone APP anytime and anywhere (Make sure your mobile phone and smart device are all connected to the network, and to change the router name into Smart Life XXX).
