Thank you for choosing Luna Products 1080p Indoor Wi-Fi Camera

This device complies with Part 15 of the FCC's Rules. Operation is subject to the following two conditions:
1 This device may not cause harmful interference, and
2 This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

This product complies with FCC radiation exposure limits for an uncontrolled environment. Avoid operating this product at a distance less than 20cm from the user.

CAUTION: Any changed or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Este dispositivo cumple con la Parte 15 de las normas de la FCC. El funcionamiento está sujeto a estas dos condiciones:
1 Este dispositivo no puede causar interferencia perjudicial.
2 Este dispositivo debe aceptar cualquier interferencia recibida, incluyendo la interferencia que puede causar un funcionamiento no deseado.

Este equipo ha sido probado y se ha comprobado que cumple con las limitaciones para un dispositivo digital Clase B, conforme a la Parte 15 de las normas de la FCC. Estas limitaciones están diseñadas para brindar una protección razonable contra la interferencia perjudicial en una instalación residencial.

Este equipo genera, usa y puede irradiar energía de radiofrecuencia; si no se instala y usa correctamente de acuerdo con las instrucciones, puede causar interferencia perjudicial para las comunicaciones radiales. Sin embargo, no se garantiza que esta interferencia no ocurra en una instalación en particular. Si este equipo llegar a causar una interferencia perjudicial para la recepción de señales de radio o televisión, lo que puede determinarse al apagery encender el equipo, instamos al usuario a intentar corregir la interferencia mediante uno o más de los siguientes métodos:
• Reoriente o reubique la antena receptora.
• Aumente la separación entre el equipo y el receptor.
• Conecte el equipo a una salida en una toma distinta a la que está conectado el receptor.
• Para obtener ayuda, consulte con el dealer o con un técnico de radio/televisión experimentado.

Este producto cumple con los límites de exposición a radiación de la FCC para un entorno no controlado. Evite operar este producto a una distancia menor a 20 cm del usuario.

PRECAUCIÓN: Cualquier cambio o modificación no aprobada expresamente por la parte responsable del cumplimiento podría invalidar la autoridad del usuario para operar este equipo.

Specifications
