RE: Myriota Pty FCC ID: 2ATKL-M2-24

This is an application for a Class II Permissive Change of the Myriota Pty FCC ID: **2ATKL-M2-24** Model **M2-24**. The M2-24 is a Single Modular Satellite Communications Module, originally certified in March 2021. The Power Amplifier and support circuitry have been replaced due to end-of-life components. Exhibit 8C – Schematic and BOM Change Summary summarizes these changes. This application requires an FCC C2PCPX PAG. The conducted power, occupied bandwidth and conducted spurious emissions have been evaluated and were found to remain in compliance with the requirements for which it was originally certified.

Should there be any questions or concerns with this filing, please feel free to contact me.

Sincerely,

Art Voss, BS EE
