SAFETY PRECAUTIONS:

- **WARNING**-When using this product, basic precautions should always be followed:
 1. Read all the instructions before use.
 2. Never store or use this product in temperatures below 32°F (0°C) or above 115°F (45°C).
 3. The unit will only achieve full performance

after 2 or 3

completed charge and discharge cycles.

4. To reduce the risk of injury, close supervision is required when the product is used near children.
5. Do not expose the device to moisture.
6. Do not use the device in excess of its output rating.
7. Overloaded outputs above the rating may result in a risk of fire or injury.
8. Do not use the device if it has been damaged or modified.
9. Damaged or modified batteries may exhibit unpredictable behaviour resulting in fire, explosion or risk of injury.
10. Do not disassemble the device. For repairs, seek a qualified service professional. Incorrect reassembly may result in a risk of fire or injury.
11. Do not expose the device to fire or excessivetemperatures. Exposure to fire or temperatures above104°F (40°C) may cause an explosion.
12. To ensure product safety, make certain that a qualified service professional uses only identical replacement parts.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information

The device was evaluated to meet general RF exposure requirements. This equipment should be installed and used with a minimum distance of 0 mm between the radiator and your body.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
- * Warning:
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
