

SETUP PHOTOGRAPHS

This document contains 8 photographs

Photograph No.1
Setup for OBW measurements

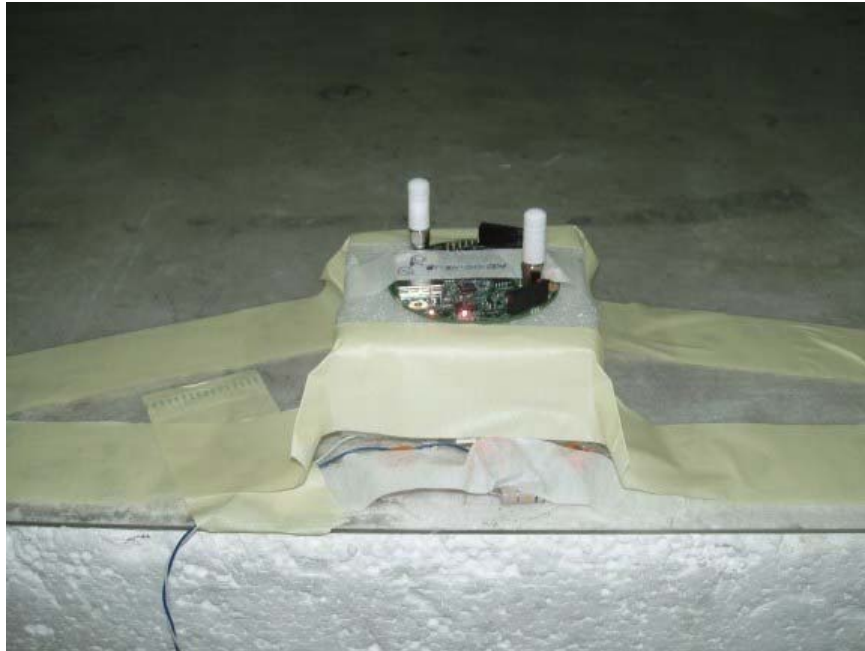

Photograph No.2
Setup for spurious emission measurements in the anechoic chamber below 30 MHz

Photograph No.3
Setup for carrier field strength and spurious emission measurements in the anechoic chamber below 1000 MHz

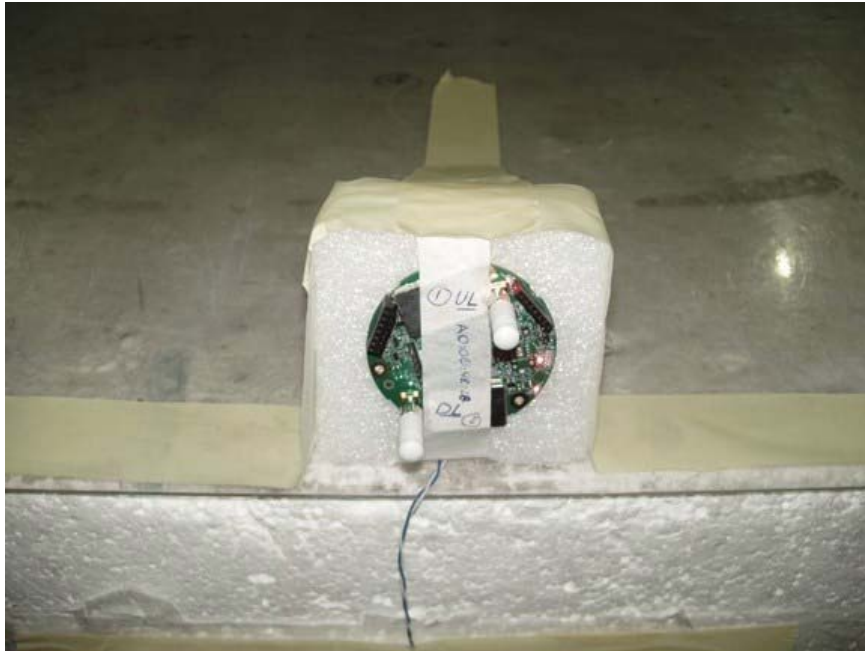

Photograph No.4
Setup for peak output power in the anechoic chamber, EUT close view in X-axis position

Photograph No.5
Setup for peak output power in the anechoic chamber, EUT close view in Y-axis position

Photograph No.6
Setup for peak output power in the anechoic chamber, EUT close view in Z-axis position

Photograph No.7
Setup for spurious emission measurements in the anechoic chamber above 1000 MHz

Photograph No.8
Setup for conducted emission measurements on the AC power lines
