Product Function Description

## Battery Usage Guidelines

The battery life and usage time after charging will decrease proportionally with the duration of product use.

Please ensure charging is done within an ambient temperature range of 0-35°C.

When the product is not used for an extended period, the remaining battery charge will naturally decrease. It is recommended to charge the battery every 3-6 months.

If the battery is left uncharged for a long time, it may become completely unchargeable or the battery lifespan may be shortened.

To extend battery life, it is recommended to charge the battery after using it for a period of time.

Keeping the battery level around 50% helps to prolong battery lifespan.

Battery endurance may vary depending on individual usage habits; actual battery life may differ from person to person.

## Download and Connection

① Download and install the "WAKEOK" App. Search for "WAKEOK" in your app store or scan the QR code to download.

② Connect the AI Smart Glasses
Enable Bluetooth on your phone. Long press the right button for 3 seconds, release when you hear the startup tone. Open the app, register and log in, grant required permissions. Tap the "+" icon in the upper-right corner, select smart glasses, find your device then tap to connect.

③ Connect AI Smart Glasses to Wi-Fi: Tap System Settings, then Wi-Fi Settings; Select the Wi-Fi name you wish to connect to, or manually enter it, and input the password to complete the connection.

## Function Operation Guide

① HD Photo Capture
Press the right-side button on the AI Smart Glasses once. A "click" sound indicates the photo is taken. Sync to the WAKEOK app to view and share.

② HD Video
Double-press the right-side button to start recording ("beep" sound). Press once again to stop recording ("beep" sound). Sync to the WAKEOK app to view and share.

③ Audio Recording
Triple-press the right-side button on the AI Smart Glasses. A "beep" sound indicates recording has started. Press once again to stop recording ("beep" sound). Sync to the WAKEOK app to view and share the audio file.

④ AI Image Recognition
Press the left-side button on the AI Smart Glasses or say "Xiao Fan Xiao Fan" / "Hi Xiao Fan" to activate the AI voice assistant. Ask a question (e.g., "What is in front of me?"). A "click" sound indicates the photo has been taken, and the AI assistant will analyze the image and provide an answer.

⑤ AI Voice Assistant
Press the left-side button on the AI Smart Glasses or say "Xiao Fan Xiao Fan" / "Hi Xiao Fan" to activate the AI voice assistant. Ask a question, and the AI assistant will analyze and provide an answer.

⑥ AI Schedule Management
Activate the AI voice assistant via button or voice, and set a schedule reminder (e.g., "Remind me of a meeting in 2 hours"). Alternatively, open the WAKEOK app, go to Schedule Reminder, and tap the "+" icon to add a reminder.

⑦ AI Intelligent translation
One-click Translation:
Open the WAKEOK app, tap One-click Translation, select the source and target languages, then press and hold the voice input icon to speak. Release after speaking, and the AI Smart Glasses will play the translation automatically.
Simultaneous Interpretation:
Open the WAKEOK app, tap One-click Translation, select the source and target languages, then tap Start Recording. The AI Smart Glasses will automatically play the translation result.
Real-time Communication:
Open the WAKEOK app, tap Real-time Communication, choose Video Call or Voice Call, select your language and your partner's language, then tap Invite Call. Copy and share the link with your partner — they can join the call by clicking the link.
Face-to-Face Translation:
Open the WAKEOK app, tap Face-to-Face Translation, select your language and the other person's language, then press and hold the button to speak. Your voice will be translated automatically.

⑧ AI Meeting Assistant
Open the WAKEOK app, tap Meeting Assistant, enter the meeting details, and tap Start to begin. Tap End Recording when finished the AI will automatically generate meeting minutes.

⑨ AI Smart Navigation
Activate the AI voice assistant via button or voice command and say your navigation request (e.g., "Navigate to Shenzhen North Station"). Alternatively, open the WAKEOK app, tap Smart Navigation, enter your destination, select the navigation mode, and tap Start.

⑩ Music Playback & Download
Play Music: The AI Smart Glasses come with built-in songs. Tap the right touch area once to play or pause music.
Download Music: Open the WAKEOK app, tap Music, select Add Music, and download the songs you want.

⑪ Call Answering
After connecting to your phone, the AI Smart Glasses will automatically announce incoming calls. Press the right-side button once to answer, press again to end the call, or double-press to reject the call.

## Notes | Precautions

① Avoid using in high temperature, humid, or strong magnetic environments to prevent interference or damage to electronics and battery.

② Handle with care; avoid strong impacts, drops, or pressure that may damage internal components.

③ Store in a dry, ventilated place away from direct sunlight; use a case or pouch to prevent scratches or collisions.

④ Use the original charger only. Avoid overcharging or deep discharge. Charge when battery <20% and unplug when full. Periodically charge/discharge to maintain battery performance.

⑤ Do not charge in wet conditions; ensure clean and full contact between charger and device.

⑥ Keep lenses clean using a soft cloth; avoid chemical solvents or rough materials.

⑦ Update firmware regularly; ensure battery >60% and stable network during updates.
