Tips

Samsung setting reference

1. How to set up your iPhone to answer calls with Bluetooth earbuds: [Settings] → [Accessibility] → [Touch] → [Call Audio Routing] → [Bluetooth Headset]
2. Volume sync setting
 - a. The volume levels between iPhones and earbuds are automatically synchronized.
 - b. Volume levels between some Android phones and earbuds are out of sync. For specific setup instructions, please contact the phone manufacturer's support.

Quick Troubleshooting

1. Low volume issue: Typically caused by unsynchronized volume levels between the earbuds and phone. Please refer to the "Volume sync setting" method above.
2. Earbuds don't charge in the charging case: first make sure the charging case is charged. Then check the charging contacts of the earbuds and the charging case respectively, and use soft cloth to clean up the dirt on the contacts and then try again.
3. Earbuds are hot when charging: when charging earbuds in charging case, especially the earbuds with 0% battery level, it is normal to be slightly hot for the earbuds during fast charging. After taking the earbuds out of the charging case, the temperature of earbuds will return to normal. But when the earbuds become extremely hot, take them out of the charging case immediately and contact the after-sales service for further processing.
4. Touch screen of charging case does not respond: open the charging case, tap and hold the charging case reset button for 8 seconds and the charging case will be reset.

Maintenance

1. If the earbuds are exposed to dust, sweat, ink, oil, pollen, or chemicals (such as soap, hand sanitizer, shampoo, shower gel, laundry detergent, detergent, cosmetics, anti-UV products, antibacterial spray, high-concentration alcohol, insecticide, and mosquito repellent) and other substances that may cause damage to the earbuds, please dampen a piece of cloth slightly with water and wipe the earbuds. Then, wipe them with a piece of dry, soft lint-free cloth and dry them in the air.

2. Do not use any chemicals or organic solvents (such as soapy water, hand sanitizer or other acid-base solvents) to clean the earbuds, or the residual may cause skin irritation.
3. Please regularly use a soft, lint-free cloth to wipe the earbuds. Do not use paper towels or cloth containing wood fibers. Do not use dirty or abrasive cloth.
4. When you put the earbuds back into the charging case for charging, please make sure that the earbuds are dry and clean.
5. When charging of the earbuds fails, please check whether the charging contacts of the charging case and earbuds are dirty. If yes, please wipe them clean with a piece of cloth or cotton swab, then try again.
6. Please use and store the product and its accessories within the temperature range of 5°C to 35°C. Operating the device in temperatures that are too high or too low may cause malfunctions. When the temperature drops below 5°C, battery performance may deteriorate.

Skin Irritation Notice

1. A small number of users may experience skin reactions due to certain materials, specially when exposed to specific environments or prolonged contact with potential irritants such as soap, sweat, sunscreen, or lotion.
2. To minimize the risk of skin irritation, avoid wearing the product on areas of broken or injured skin.
3. Keeping your earbuds clean and dry can help reduce the chance of irritation.
4. Remember to take off your earbuds regularly to let your skin breathe and your ears relax.
5. If you have sensitive skin, it is recommended not wearing the earbuds for more than 3 hours at a time.
6. If you notice redness, swelling, itching, or any other signs of skin irritation, stop using the product immediately and consult a doctor.
