

Solder Board-Component View 8	 A photograph of a square black PCB component with gold-colored solder pads at the corners. The component is placed on a blue textured surface next to a metric ruler. The ruler shows centimeters from 1 to 10 and millimeters from 0.5 to 17. The PCB has various markings including 'MARK 4', 'IC8', 'R24', 'C43', 'C44', 'MARK 7', and 'DOO'.
Solder Board-Component View 9	 A photograph of a green PCB component with two gold-colored connectors labeled 'CN2' and 'CN1'. The component is placed on a blue textured surface next to a metric ruler. The ruler shows centimeters from 1 to 8 and millimeters from 0.5 to 14. The PCB has markings including 'MARK 4', 'CN2', 'CN1', 'LED-EN', '+12V', 'MARK 3', and 'R10'.

Solder Board-Component View 10	 A photograph of a small green printed circuit board (PCB) component, labeled 'View 10', placed on a blue textured surface. The component is rectangular with rounded corners and features four gold-colored surface-mount LEDs arranged in a horizontal row. Above the LEDs, the text '2005-77-L-03' and 'D02 04 24' is visible. Below the LEDs, the text 'LED1 LED2 LED3 LED4' is printed. The component is flanked by two rulers: a vertical one on the left showing centimeters (1-9) and millimeters (0.5, 1, 2, 3, 4, 5, 6, 7, 8, 9), and a horizontal one at the bottom showing millimeters (1-16). The component is positioned between the 4 cm and 6 cm marks on the vertical ruler and between the 4 mm and 6 mm marks on the horizontal ruler.
Solder Board-Component View 11	 A photograph of the same green PCB component, labeled 'View 11', showing its reverse side. The component is placed on the same blue textured surface. It features two gold-colored surface-mount LEDs, labeled 'LED-EN' and 'LED-EN +12V', and a small gold-colored component labeled 'MARK3'. The text 'MARK4' is visible at the top. The component is flanked by two rulers: a vertical one on the left showing centimeters (1-8) and millimeters (0.5, 1, 2, 3, 4, 5, 6, 7, 8), and a horizontal one at the bottom showing millimeters (1-15). The component is positioned between the 4 cm and 6 cm marks on the vertical ruler and between the 4 mm and 6 mm marks on the horizontal ruler.

Solder Board-Component View 16	 A photograph of a green printed circuit board (PCB) component with various electronic components and solder joints. A copper-colored rectangular loop is attached to the top of the board. The board is placed on a blue textured surface. Two rulers are visible: a vertical one on the left showing centimeters (1-12) and a horizontal one at the bottom showing millimeters (1-20).
Antenna View 1	 A photograph of the same green PCB component, focusing on the antenna area. A red rectangular box highlights the antenna structure, which consists of concentric circular traces. A red line points from a label box below to this area. NFC Antenna
