

Solder Board-Component View 11	 A photograph of a small, rectangular green printed circuit board (PCB) component, likely a surface-mount device, resting on a blue textured surface. The component has a small, irregular white solder bump on its left side. Two metal rulers are placed around the component for scale: one vertically on the left showing millimeter markings from 1 to 10, and one horizontally at the bottom showing centimeter markings from 1 to 18. The component is positioned between the 2 cm and 3 cm marks on the horizontal ruler.
Solder Board-Component View 12	 A photograph of the same green PCB component from a different angle. In this view, the component is oriented horizontally and shows two circular features, possibly solder pads or vias, on its top surface. The same blue textured background and metal rulers for scale are present, with the component positioned between the 2 cm and 3 cm marks on the horizontal ruler.
