

Smart Bamboo Wireless & USB Charging Station

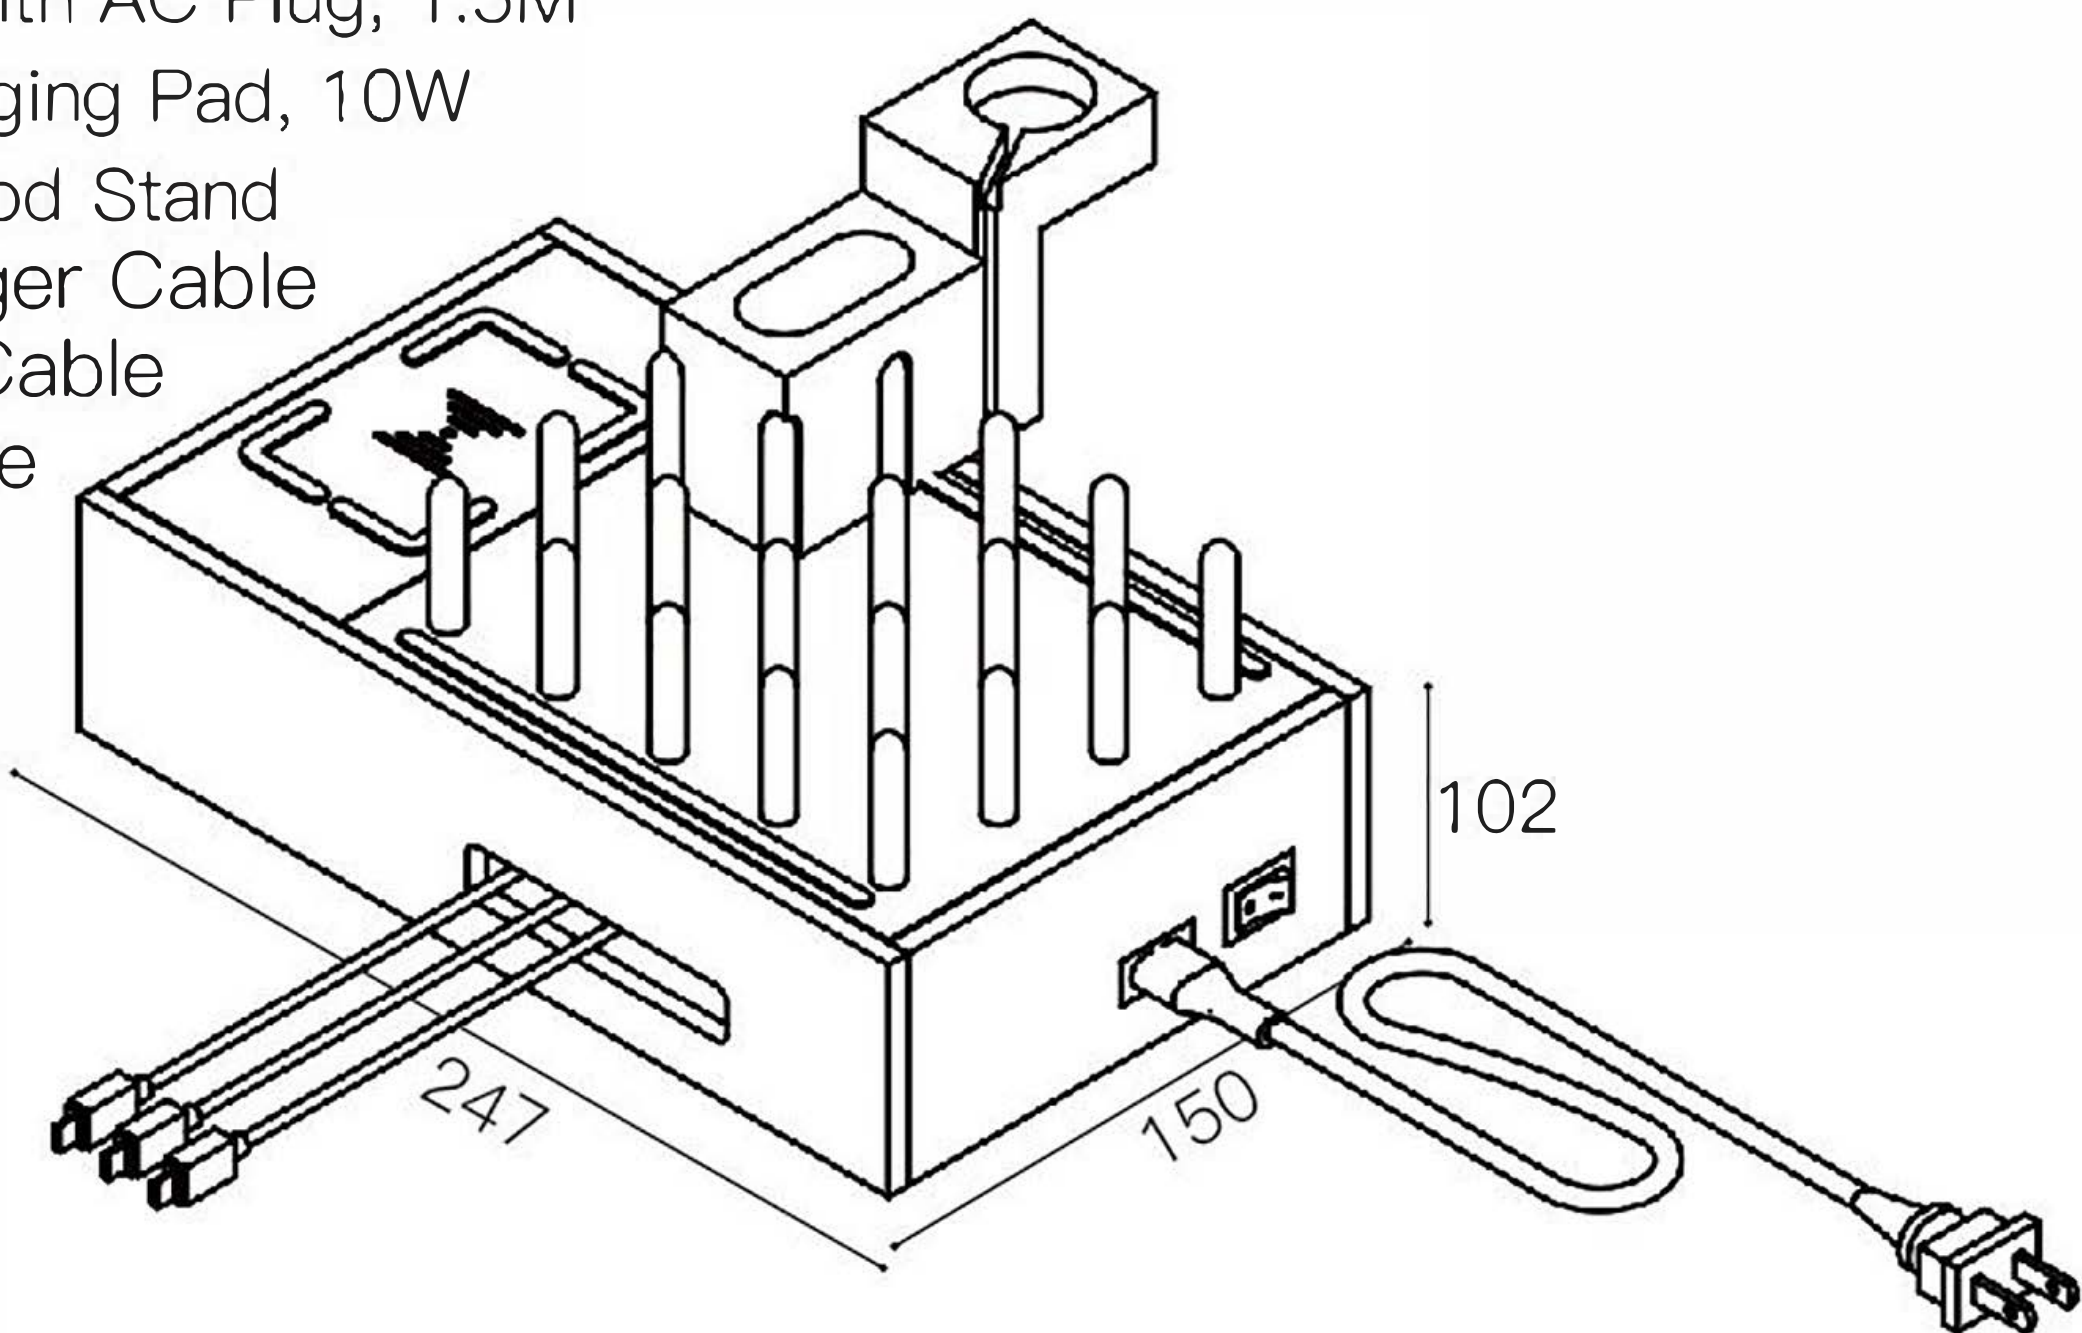

2. Before use, please read the specifications of the product as below:

Model Number	DF19600
Product Name	Smart Bamboo Wireless & USB Charging Station
Materials of Structure	Natural Bamboo
Number of USB Port	7 Ports
Input Voltage	100 ~ 240V
Frequency	50-60HZ
Output Voltage of USB Ports	5 V
Output Current of USB Ports	10 A
Total Power of USB Ports	50 W
Output Current of Wireless	1 A
Total Power of Wireless	10 W
Dimension	247 X 150 X 102 MM
Net Weight	1022 g

3. Product Content:

- 1 X Bamboo Wireless & USB Charging Station
- 1 X Power Cord with AC Plug, 1.5M
- 1 X Wireless Charging Pad, 10W
- 1 X iWatch & Airpod Stand
- 2 X iPhone Charger Cable
- 2 X Micro-USB Cable
- 1 X Type-C Cable

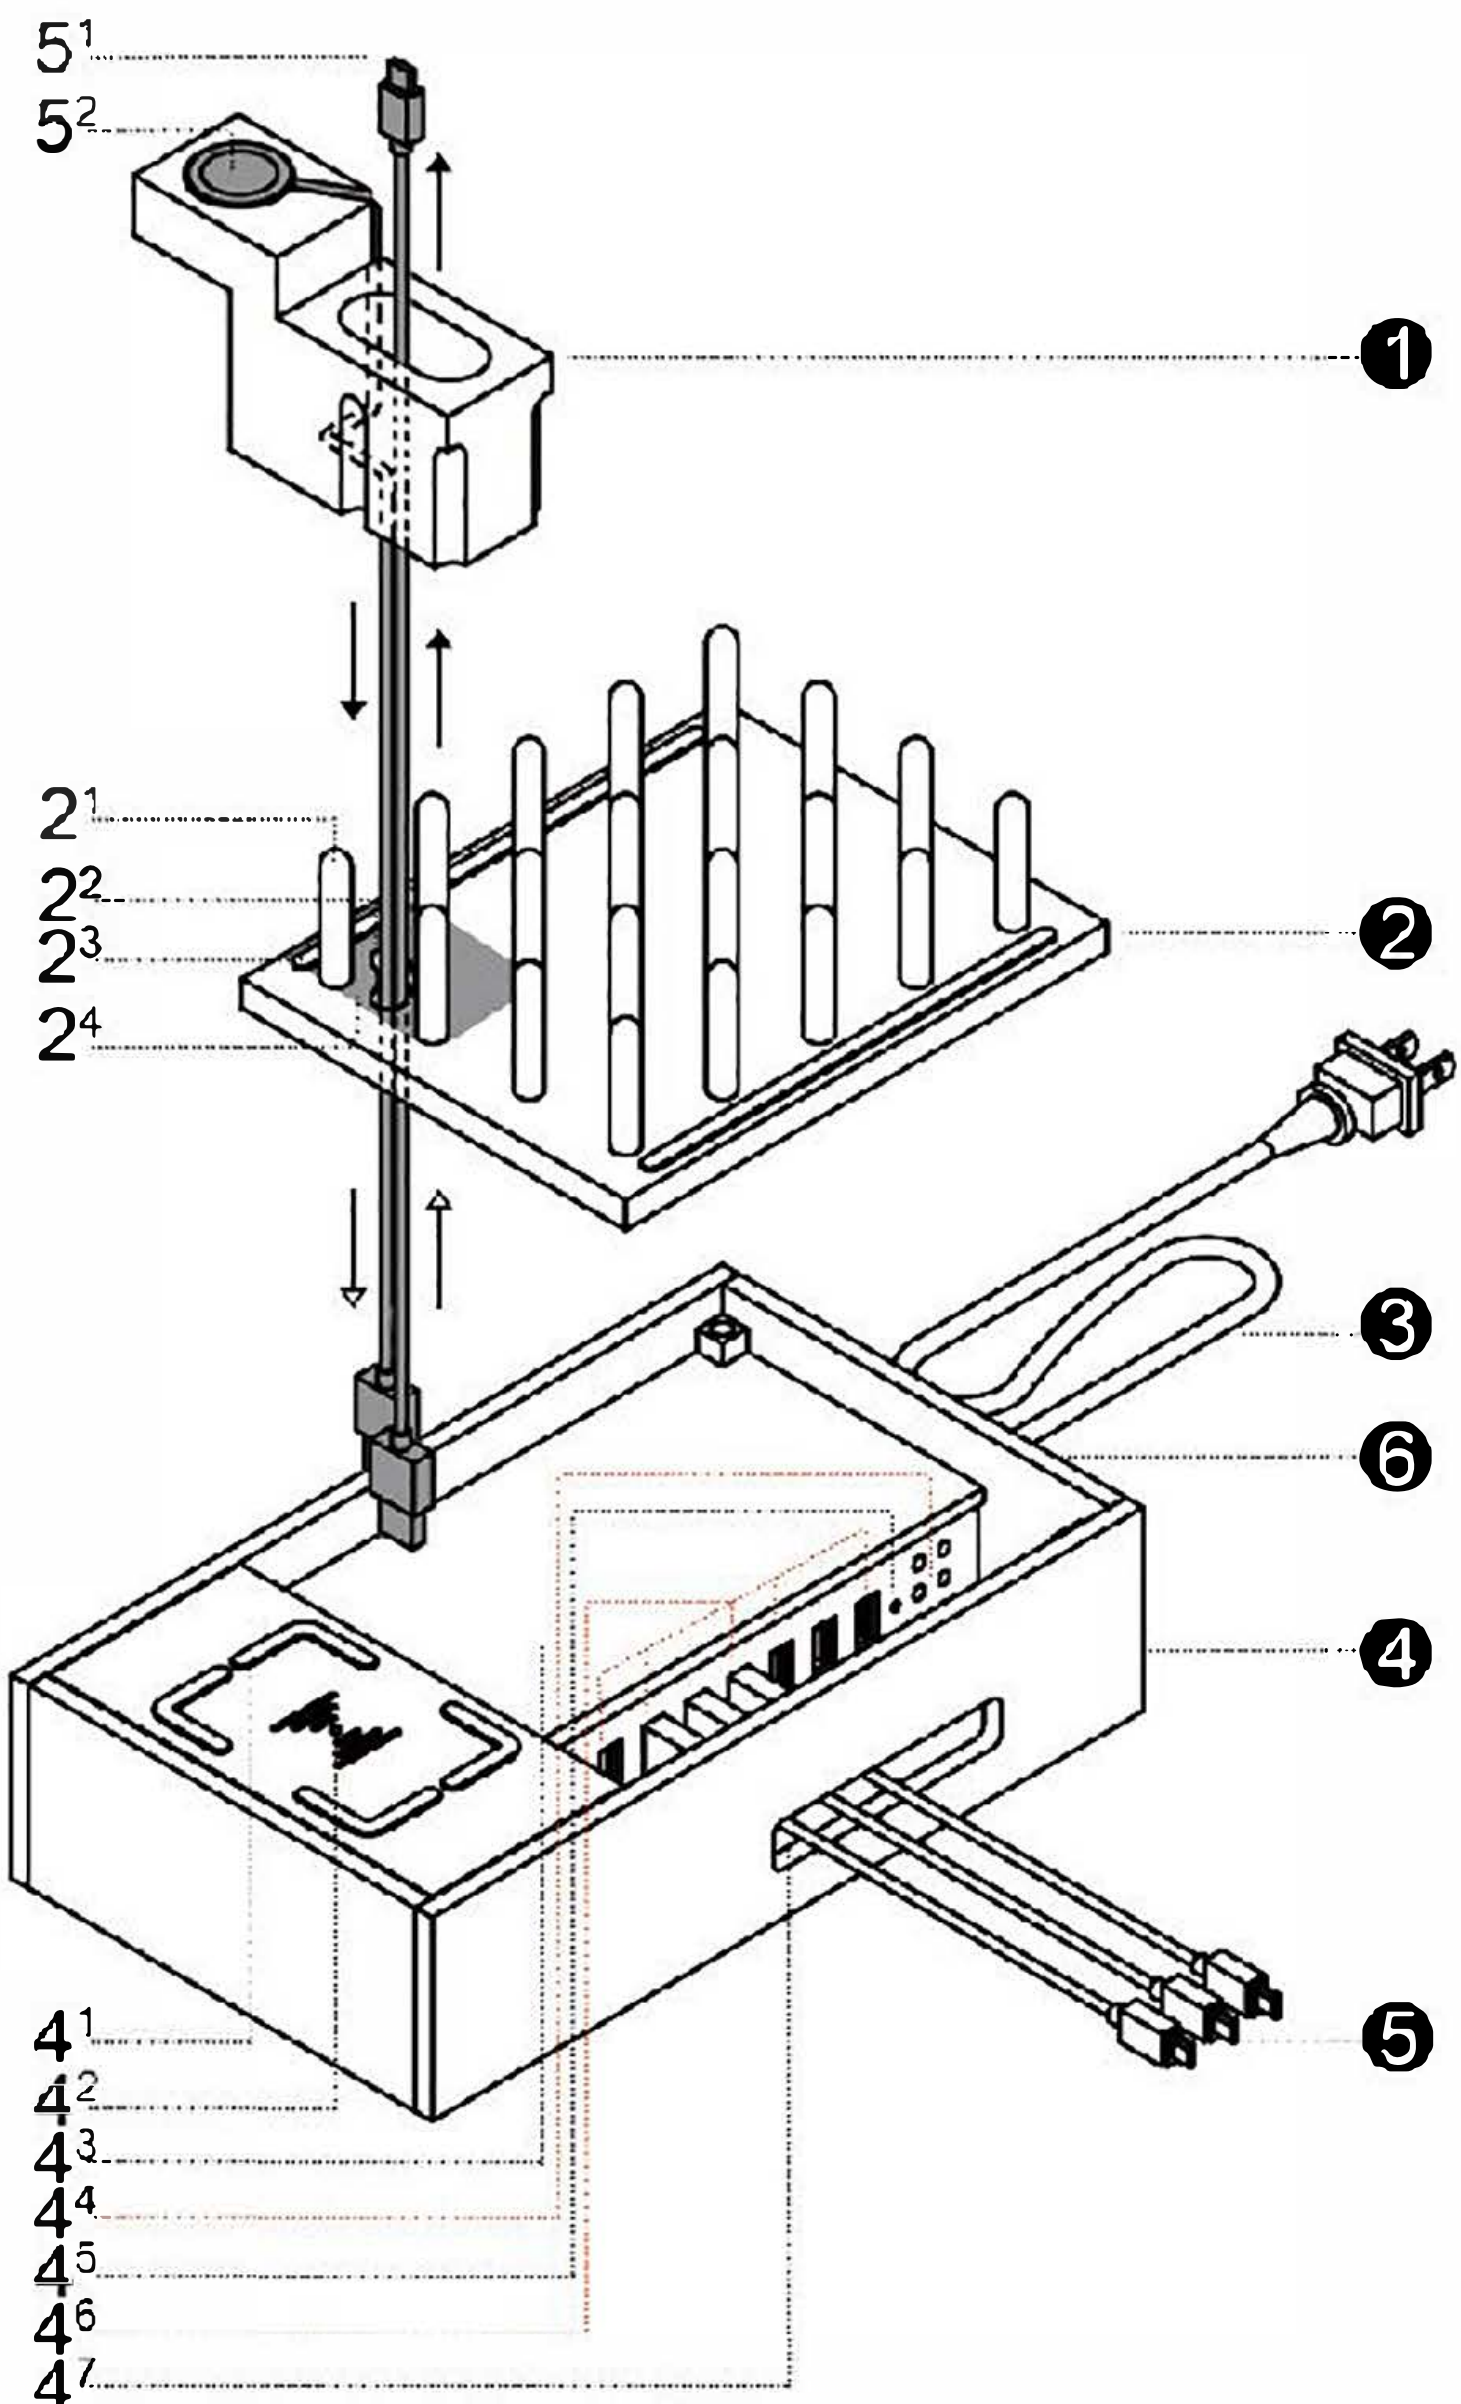

Unit: mm

IMPORTANT SAFETY AND PRODUCT INFORMATION

- For all safety issue, please read the below carefully before use:
 - The product is an USB charging station with power supply cord designed for adults use only.
 - Do not attempt to open the enclosure or disassemble the product. Doing so will void the warranty and can result in a safety hazard.
 - Do not use the product in any wet areas, including outdoor and the sides of pool, bathroom and kitchen sink etc, where are close to the water.
 - Do not charge your devices if it is wet, or use your devices while charging. Please only use the qualified cables for your devices, and the shoddy cables will damage the product and your devices.
 - This charging station is strictly designed and produced under the safety regulation, but Darfoo always advise our customer to switch off the power button while sleeping for safety issue.
 - Do not use the product in the high temperature environment (60°C and above)

- Totally different from any other products, 20 columns, 4 slots on horizontal or 3 slots on vertical direction, 7 slots on slanting direction, the creative design of column slot allows the multiple users to put the multiple devices on column slot stand in various direction and use it at same time.
- [Wireless Charger]** Fast charging, put Smart Phone with Qi application in center of wireless charging pad 4², if don't start charging, please check if the devices is in middle of wireless charging pad.
- [Anti-skid Silicone Gel]** 4¹/2¹ This design will greatly reduce the risk of devices falling down from the slot stand while moving the charging station, which would avoid the loss as much as possible.

REGULATORY INFORMATION

Federal Communication Commission(FCC) Statement
This device complies with part 15 FCC Rules

LIMITED PRODUCT WARRANTY

Darfoo warrants to the original purchaser that your Darfoo-branded device and its accessories (collectively, the "product") shall be free from defects in materials and workmanship under normal use for a period of one(1) year from the date of purchase.

HOW TO OBTAIN WARRANTY SERVICE

To obtain warranty service, please contact services@darfoohome.com for help. If you want to return the damaged product and request a new one, then you must deliver the damaged one back to Darfoo, and Darfoo will send a new one after receiving the damaged one. If you just want to return it, please keep it brand new without damage of product, carton and all spare parts in the package.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

–Reorient or relocate the receiving antenna.

–Increase the separation between the equipment and receiver.

–Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

–Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
