

Test Setup Photos of the EUT

Test Setup Photo(s) of Radiated Emissions Measurement

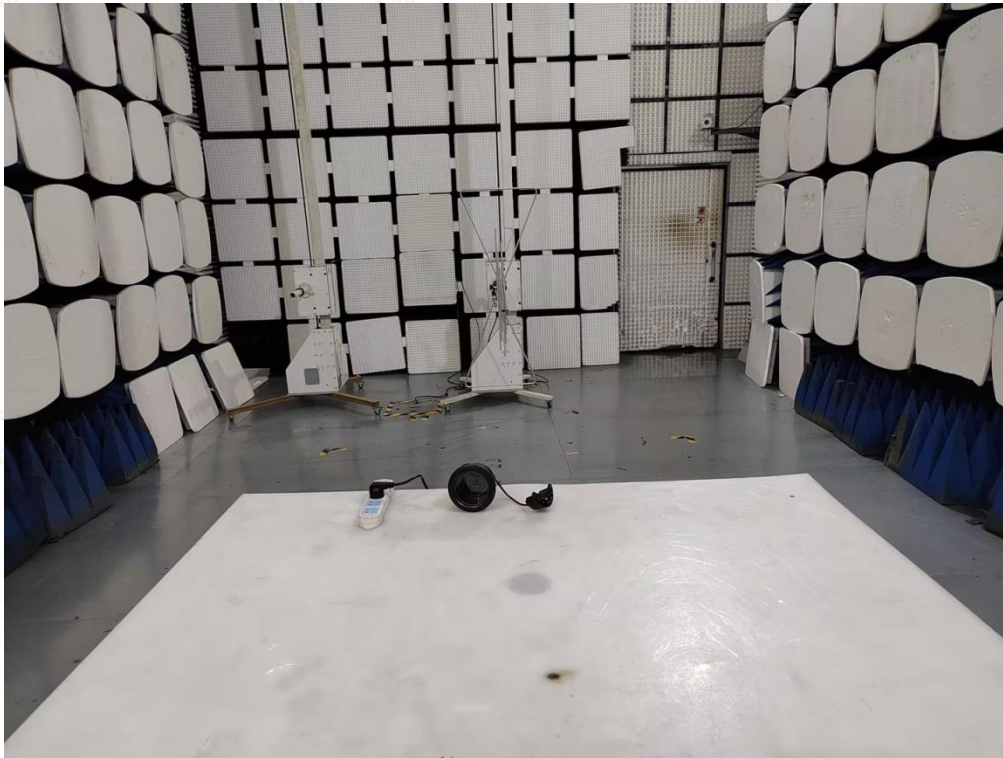

Fig. 1

Fig. 2

The image shows a Keysight MSA Digital Analyzer (top) and an MWRFest MW100-RFCB RF Automatic Test System (bottom) connected to a circuit board. The Keysight analyzer displays a spectrum plot on its screen, showing a signal between 1.0 and 1.2 GHz. The MWRFest system has several connectors on its front panel, including a blue SMA connector and several gold-plated connectors. A black cable is connected to the blue SMA connector, and a white cable is connected to one of the gold-plated connectors. The circuit board is mounted on a white cylindrical base and is connected to the MWRFest system via several wires. The entire setup is placed on a wooden surface.
