

Family Declaration

Family Declaration Application

Introduction

This document establishes the primary model and its associated family members, confirming that all products within the family maintain consistent technical standards and specifications.

Primary Model

AK-CC25 Pro BT: Case controller featuring four relay outputs, Bluetooth Low Energy (BLE) connectivity, and with Pro Software.

Family Members

- **AK-CC25 Ultra BT:** Case controller with Solid State Relay (SSR), three relay outputs, Bluetooth Low Energy (BLE) connectivity, and Ultra Software.

FCC ID: 2ATXJ-AKCC25

IC ID: 25253-AKCC25

Technical Consistency & Installation Details

- Identical RF circuitry and BLE implementation across all family members.
- Consistent PCB layout: variations are limited to component population only.
- Hardware Version: 084B4023, 084B4025
- Installation Class: Panel mount in cabinet
