User's manual

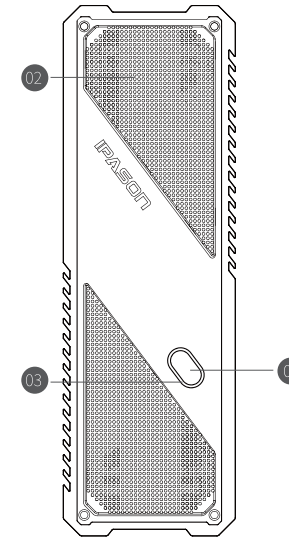

Foot pad

Note: The pictures are for reference only. Actual products may vary by region. Please focus on the actual products you purchase.

Important! !

During the warranty period, if the product and accessories are faulty under normal use conditions, please use the mobile phone to scan the QR code on the main body of the product, and there will be professional maintenance personnel to solve the problem for you. Or contact the official after-sales service center at: 400-0055-360.

Front view

01 The power switch

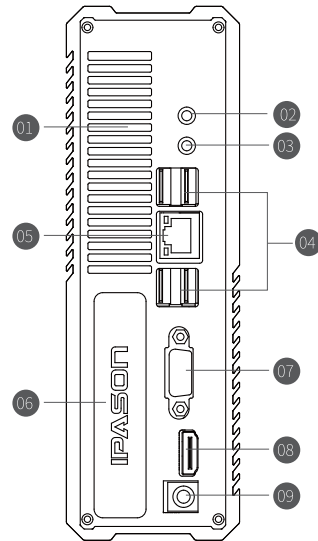

This power switch can turn the power on or off

02 Front cooling hole

Dissipate the heat generated by the device and lower the temperature to ensure the normal operation of the chassis

03 Power Indicator

Back view

- 01 **Back cooling hole**
Dissipate the heat generated by the device and lower the temperature to ensure the normal operation of the chassis
- 02 **Audio output interface** 03 **Audio input interface**
- 04 **USB 3.0 connection port**
Connection port for data transfer and backward compatibility with USB 2.0
- 05 **Network connection port RJ45**
Support standard Ethernet cable, can connect to LAN

- 06 **Ipason nameplate**

- 07 **COM connection port**

- 08 **HDMI connection port**
High-definition multimedia interface that can send uncompressed audio and video signals, and the connection port can be connected to a display device that supports Full-HD, such as a LCD or a LCD display.

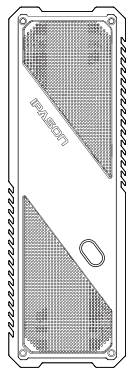

- 09 **DC power input interface**
The power adapter converts AC power to DC power, and the converted power supplies power to your computer through the power input interface.

Chapter 2

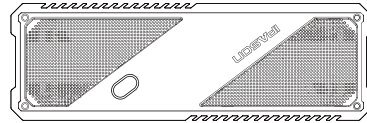

Use your F-MIGRATE

Before use

Place your MIGRATE

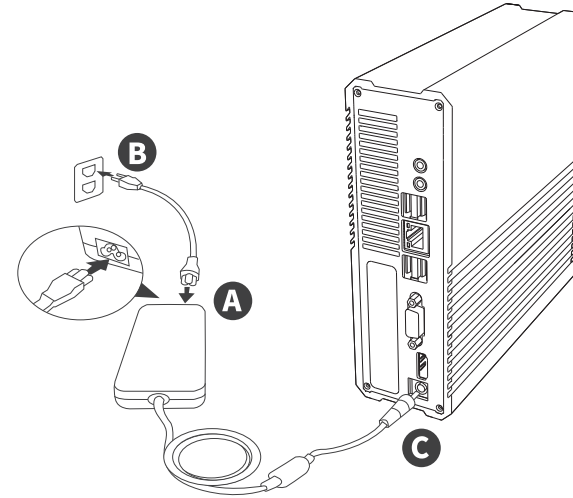

Perpendicular put

Horizontal put

Note: After confirming the position of the F-MIGRATE, please attach the foot pad in the box to the side where F-MIGRATE touches the table to prevent scratching.

Connect the power supply

Please follow the steps below to connect the power adapter to the F-MIGRATE

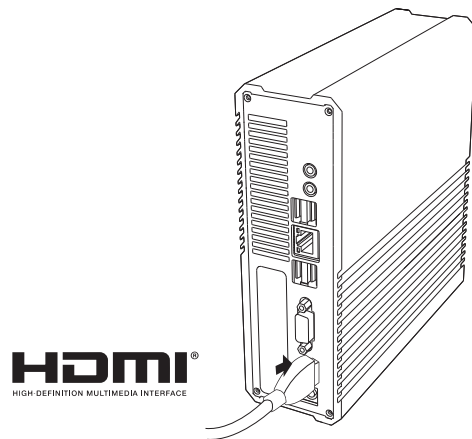

- A: Connect the AC power cord to the AC/DC adapter
- B: Connect the AC adapter to a 100V - 220V power outlet
- C: Insert the DC power plug into the DC power jack of the F-MIGRATE

Important!!

- It is highly recommended that you use the AC adapter and cable included in the F-MIGRATE-box.
- It is highly recommended that you use a grounded wall outlet when using the F-MIGRATE
- To remove F-MIGRATE from the main power adapter, lift the F-MIGRATE from the power outlet

Install the screen

Please follow the instructions below to connect the screen to the F-MIGRATE and connect the cable of the display device to the HDMI port.

Turn on the power of F-MIGRATE

Press the power button to turn on your F-MIGRATE.

Appendix

Safety instructions

Operational precautions

Before using this product, please be sure to read the information provided in this manual. Dust, moisture, and temperature changes can affect the service life of the product, so please pay attention to the following:

- Do not place this product in an uneven or unstable working environment.
- When using this product, be sure to ensure effective heat dissipation around the area for heat dissipation.
- Avoid placing small pieces such as paper fragments, screws, and thread ends near the connectors, slots, and holes of the product.
- Do not insert anything into the product to avoid short circuit or damage to the circuit.
- Please use the power adapter that is configured with this product. If the wrong power adapter is used, it may cause damage to internal parts.

Precautions for use

Before using this product, please be sure to read the information provided in this manual. Dust, moisture, and temperature changes can affect the service life of the product, so please pay attention to the following:

- Keep this product in a dry environment. Rain, moisture, liquids, etc. contain minerals that can corrode electronic circuits.
- To avoid serious damage from possible electric shock, temporarily unplug all power cords from the power supply slot before cleaning or moving the product.
- If you encounter any of the following problems or any technical problems while using this product, please contact your authorized dealer.
- Do not replace the internal accessories in the chassis. In case of failure, please contact the after-sales service personnel directly.
- If the computer main unit is damaged, do not repair it yourself. Please contact the after-sales service personnel directly.

Name and content of toxic and harmful substances or elements in the product

Name of parts	Harmful substances					
	(pb)	(Hg)	(Hg)	(Cr(VI))	(PBB)	(PBDE)
PCB assembly	X	O	O	O	O	O
Hard disk	X	O	O	O	O	O
Memory	X	O	O	O	O	O
Computer I/O accessories	X	O	O	O	O	O
Power	X	O	O	O	O	O
Case/accessories	X	O	O	O	O	O
This form is prepared in accordance with the provisions of SJ/T11364 O: Indicates that the content of the hazardous substance in all homogeneous materials of the part is below the limit requirement specified in SJ/T11363-2006. X: Indicates that the content of the hazardous substance in a homogeneous material of the part exceeds the limit requirement specified in SJ/T11363-2006. Note: Parts marked "X" in the table cannot be replaced by hazardous substances due to global technological development limits. Printed circuit board assembly*: Includes printed circuit boards and their components, capacitors and connectors. Depending on the model, all the above components may not be included. Please refer to the actual model purchased.						
 Electronic information products sold within the territory of the People's Republic of China must identify this mark, and the number in the mark represents the environmentally friendly use period of the product under normal use.						

After-sales service process description

When applying for a warranty, you should provide a clear, complete and accurate sales invoice and warranty card.

This is the certificate that you are entitled to a warranty.

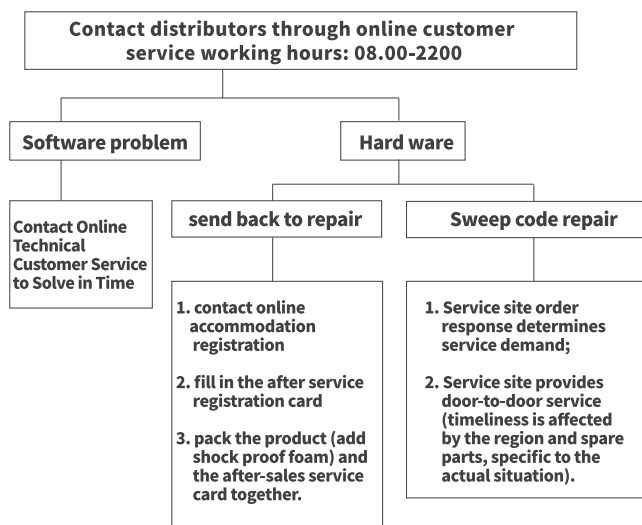

Where applicable, before providing services, you should:

Comply with the specified service application procedures; provide the necessary support and cooperation to provide services, including providing a system key or password and necessary venues;

To keep your data safe, be sure to back up your data that you think is important. We do not provide services for backing up and restoring data, nor do we assume corresponding legal responsibilities;

If the return of the goods occurs, please be sure to return the original packaging of the product. Do not paste any labels on the original packaging; (If there is a problem with the original packaging, the manufacturer will not be replaced, only repairs) Products are electronic products, please We will be grateful for your work on packing shockproof work.

After-sales service process description

Note: The service period is from the date of signing and receiving express delivery, and the warranty period provided by the manufacturer is the basis for some accessories.

FCC Statement

FCC Statement This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
