<div>Solder Board-Component View 2</div>	 A photograph of a green printed circuit board (PCB) component, likely a battery management system (BMS) or charger module, placed on a blue surface. The component is rectangular with a long, thin extension on the left side. It features various electronic components, including resistors, capacitors, and integrated circuits. Two rulers are placed around the component for scale: a vertical ruler on the left showing centimeters from 1 to 15, and a horizontal ruler at the bottom showing centimeters from 1 to 18. The component's length is approximately 10 cm.
<div>Solder Board-Component View 3</div>	 A photograph of a black cylindrical rechargeable Li-ion battery, labeled "Rechargeable Li-ion Battery" and "WorldPower", placed on a blue surface. Two wires, one red and one black, are connected to the battery terminals. A white plastic component is also visible near the wires. Two rulers are placed around the battery for scale: a vertical ruler on the left showing centimeters from 1 to 22, and a horizontal ruler at the bottom showing centimeters from 1 to 24. The battery's length is approximately 10 cm.
