

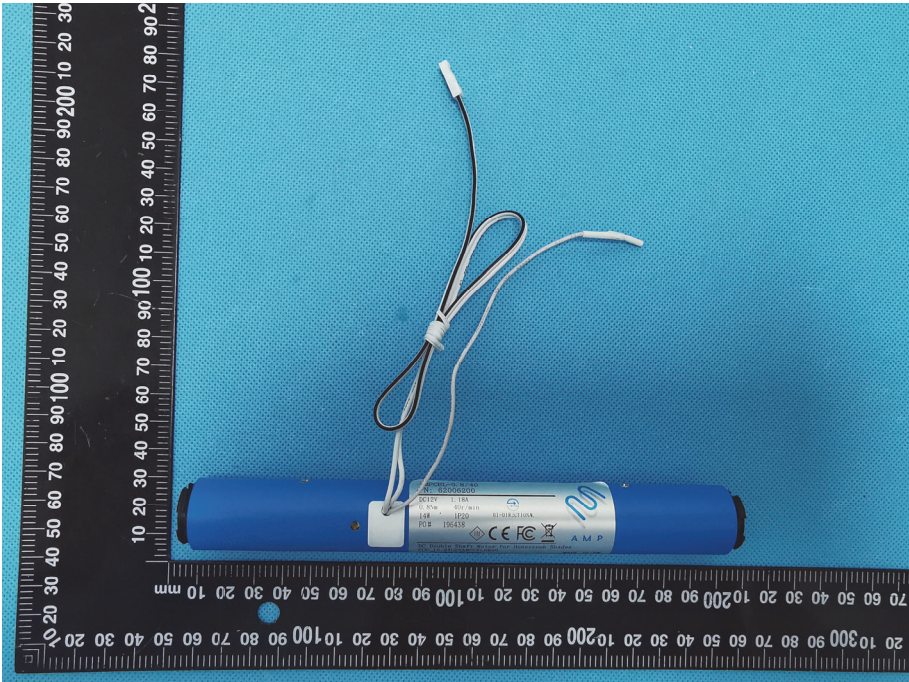

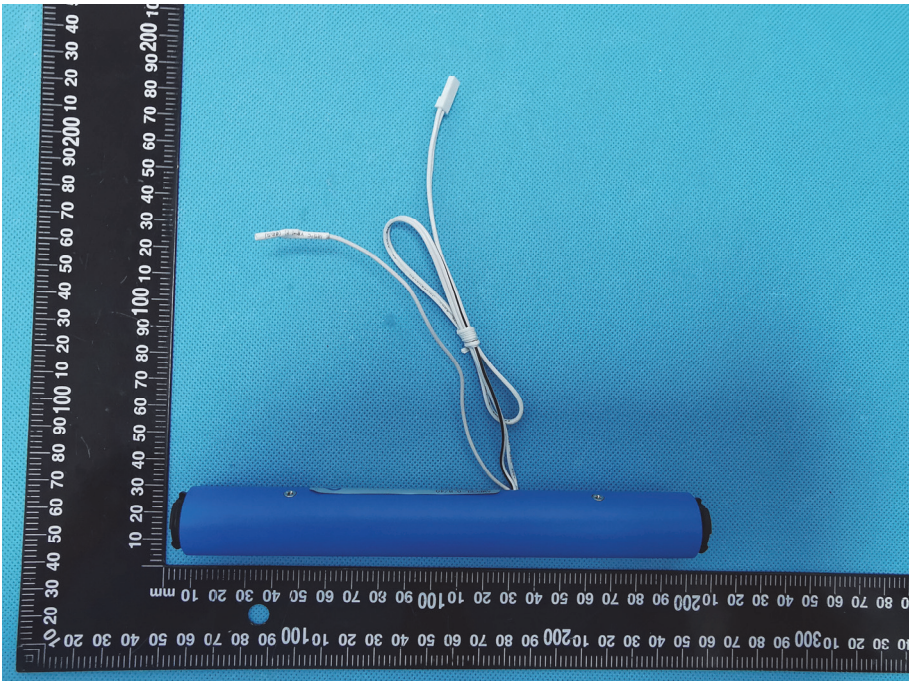

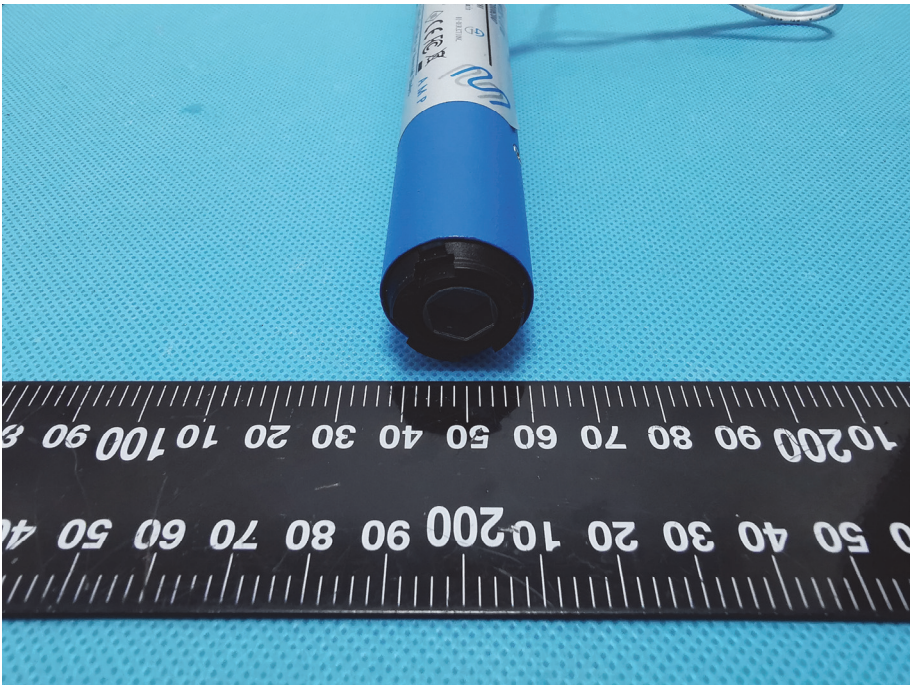

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph of a blue cylindrical electronic unit (EUT) lying horizontally. A white label is affixed to the center of the cylinder, featuring technical specifications and a logo. Two white cables are connected to the unit; one cable is plugged into a port on the side, and the other is a loose end. The unit is placed next to a black ruler with white markings, which provides a scale for the object's size. The background is a solid blue surface.
EUT View 2	 A photograph of the same blue cylindrical electronic unit from a different perspective. This view shows the top and bottom caps of the cylinder. The white label is still visible on the side. The two white cables are also present, with one plugged into a port. The unit is positioned next to the same black ruler for scale, against the same blue background.
