Solder Board-Component View 2	 A photograph of a rectangular green printed circuit board (PCB) component. The board is populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller surface-mount components, and a gold-plated edge connector. The board is placed on a blue textured surface. A black L-shaped ruler with white millimeter markings is positioned around the component for scale. The ruler shows the component is approximately 40mm wide and 25mm high.
Solder Board-Component View 3	 A photograph of a circular green printed circuit board (PCB) component. The board features a central circular pad, a small black IC, and several other surface-mount components. It is placed on a blue textured surface. A black L-shaped ruler with white millimeter markings is positioned around the component for scale. The ruler indicates the component has a diameter of approximately 15mm.

Solder Board-Component View 4	 A photograph of a small, circular green printed circuit board (PCB) component. The component is positioned on a black surface with a white ruler for scale. The ruler shows measurements in millimeters, with the component's diameter being approximately 10 mm. The PCB has several small components and markings, including "D01589-T", "REU:1.0", "W 94V-0", "E46455985-1", and "H8371".
Solder Board-Component View 5	 A photograph of a rectangular green printed circuit board (PCB) component. The component is positioned on a black surface with a white ruler for scale. The ruler shows measurements in millimeters, with the component's length being approximately 60 mm and its width being approximately 20 mm. The PCB has several small components and markings, including "D01558A-RF", "REU:1.0", "W 94V-0", "RoHS", "E331298", and "ZXH-2".

Solder Board-Component View 6	 A photograph showing a small green printed circuit board (PCB) component mounted on a larger black PCB. The component is positioned near a ruler with millimeter markings. The component has several gold-colored pads and a small black chip. The text 'DD1555H-RF A/B3' and '433.92MHz 2125 S2' is visible on the component.
Antenna View	 A photograph showing the same green PCB component from a different angle, highlighting a long, thin, white antenna wire extending from the board. A red box highlights the antenna wire, and a red line points to it from a label '433.92MHz Antenna'.
