Assembly & Disassembly

ASSEMBLING AND DISASSEMBLING THE FEEDER:

Hold both sides of the Food Bucket and lift upwards for removal;

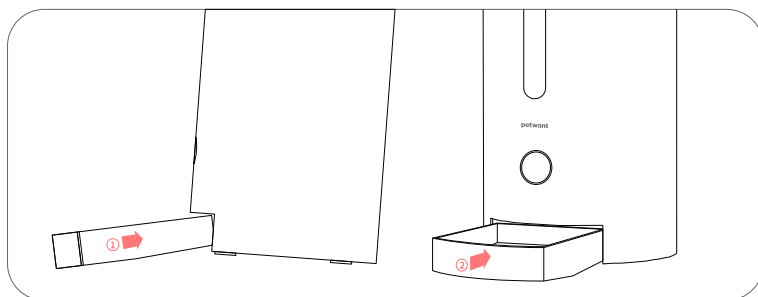

The direction of the food bucket gears need to be aligned with the direction of the main body slot. Once aligned, press downward.

ASSEMBLING THE FOOD TRAY

Hold the feeder slightly backwards and fit the tray into the opening below.

Push it towards the body.

⚠ Cleaning Your Smart Feeder

1. Please turn off and unplug the device before cleaning.
2. Clean the unit with a damp cloth rather than a soaked cloth.
3. The food tray and tank can be removed for cleaning in an automatic dishwasher.
4. The base cannot be immersed in water at any time or it may cause a short circuit of the device.

Important Safety Information

Proper safety warning information can avoid potential danger for people and pets. Please read the safety information carefully.

1. Fit for small animals.
2. Do not use outdoors. For indoor (household) only.
3. Do not disassemble the feeder's components except the food tray and food tank.
4. Do not place anything on top of the feeder.
5. Do not install or expose the feeder to a low temperature environment below -20 °C (-68 F).
6. The feeder is suitable for operation by users over 12 years old.
7. Do not disassemble or repair the feeder privately, if there is any malfunction or damage for the feeder, please contact our customer service team.
8. The feeder is suited for 0.2 - 0.6 inch diameter dry pet food. Do not put others thing into the feeder except pet food.
9. Please ensure feeder is properly plugged in to ensure adequate power before a long trip.
10. If the plug of this device gets wet, turn off the electricity to the wall outlet, do not unplug. If there is damage around the power cord or adapter, please contact our customer service team.
11. To avoid electric shock, do not place the power cord or plug near water or other liquids, only use power cord that is sold by the manufacturer.
12. Do not immerse the feeder in water at any time, the pet feeder should not be submerged in water at any time, otherwise the electric components will be damaged.
13. Dispose of all packaging materials properly, some components may be packed in poly bags, these bags could cause suffocation; Keep away from children and pets.
14. Examine this appliance after installation, do not plug in if there is water on the power cord or plug. To avoid tipping, please place the device against a wall.
15. This product is for use by pets, any accidents caused by unauthorized usage is invalid. We will not be responsible for unauthorized usage.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
