

FCC Label Design and Location

FCC label properties:

- has the size of 2" × 2".
- The FCC ID and the included module labels are printed on a thick, premium vinyl known technically as polyvinyl chloride, or PVC. It features a permanent adhesive and a matte finish.

Figure 1: FCC label.

This device
includes
FCC ID: RYK-WPEA252NI

Figure 2: Included module label.

The FCC ID and the included module labels will be placed on the bottom of sensor box from outside. Please see the following figure.

Figure 3: Labels location.

The included module label with the FCC ID: RYK-WPEA252NI refers to the WiFi card inside the sensor computer.
