

FCC Label Design and Location

FCC label properties:

- Label size is 2"×2".
- The FCC ID and the included module labels are printed on a thick, premium vinyl known technically as polyvinyl chloride, or PVC. It features a permanent adhesive and a matte Finish.

LTE/SEN810 Rugged Sensor FCC Label

The FCC label design is as in the following figure:

The FCC label will be placed at the center of the bottom lid of the sensor box from outside. Please see the following figure.
