Motor 1

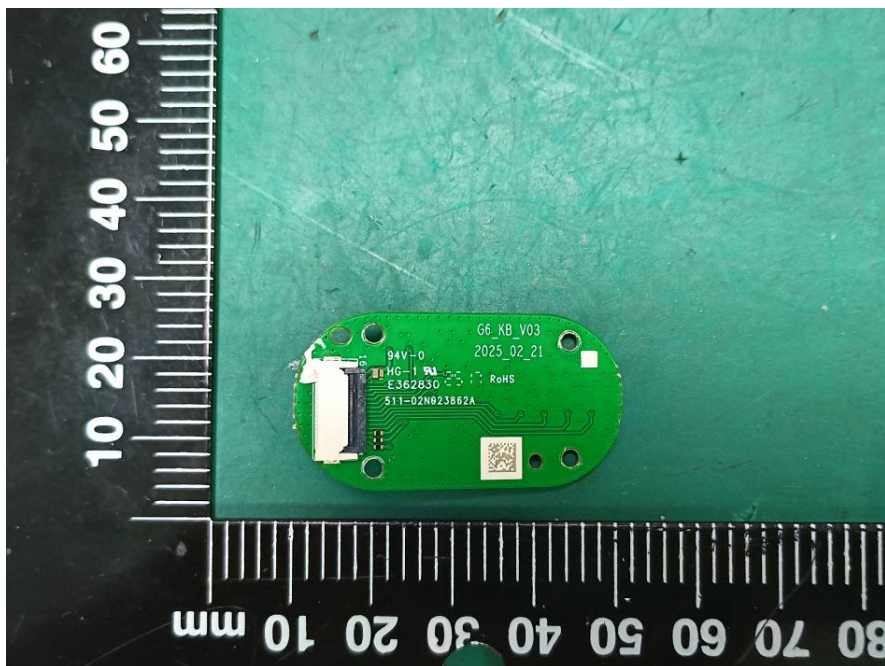

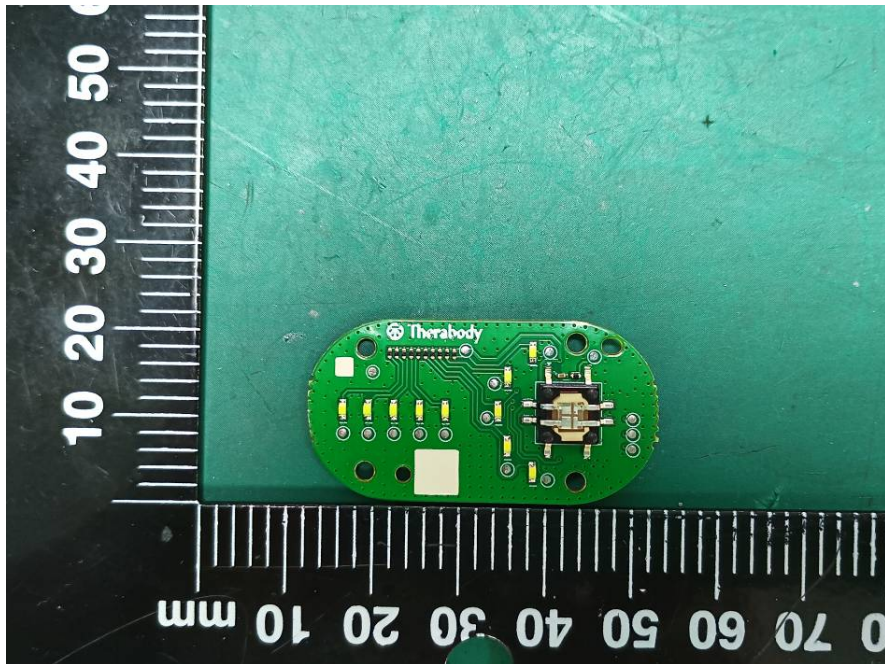

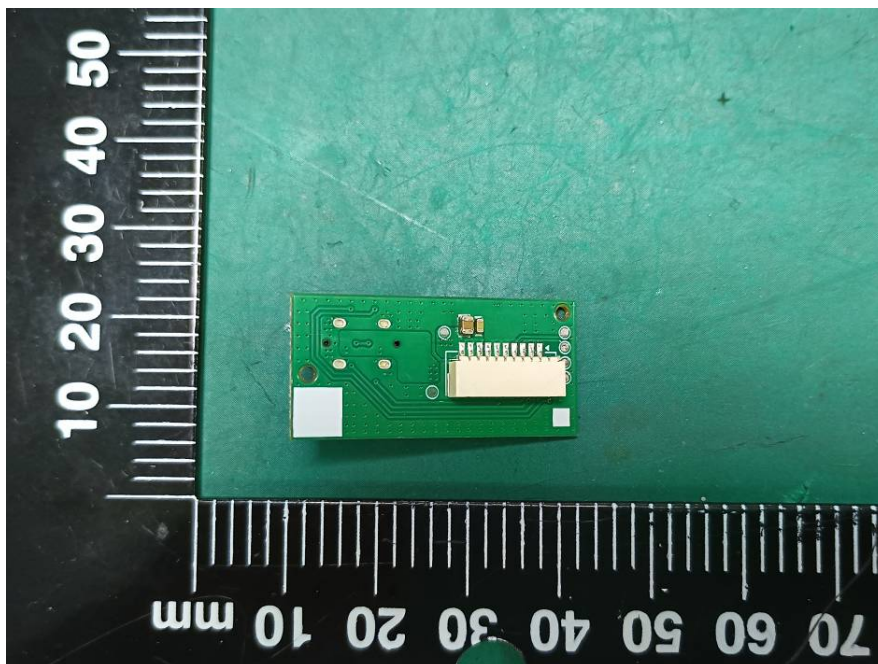

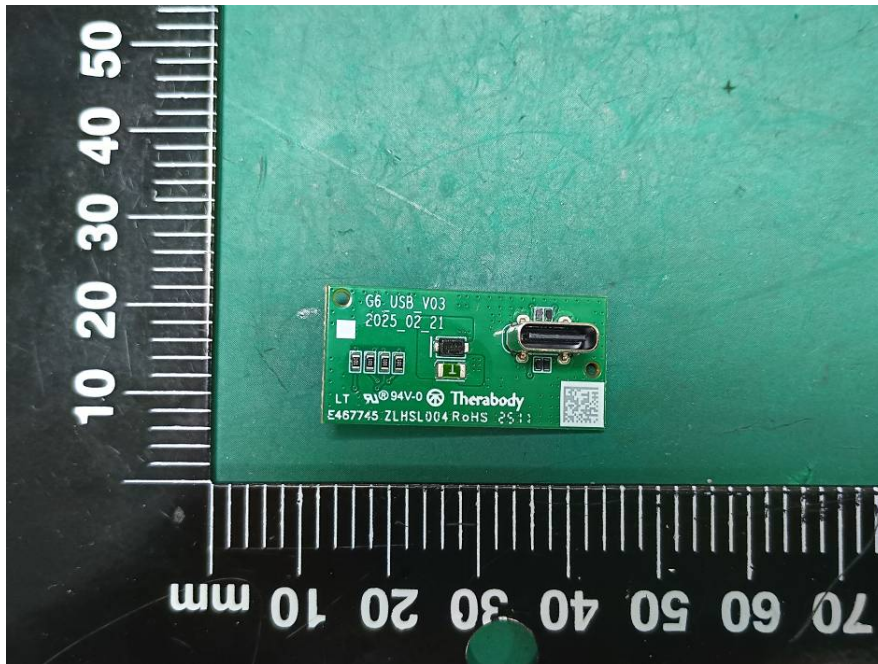

Including Motor 2

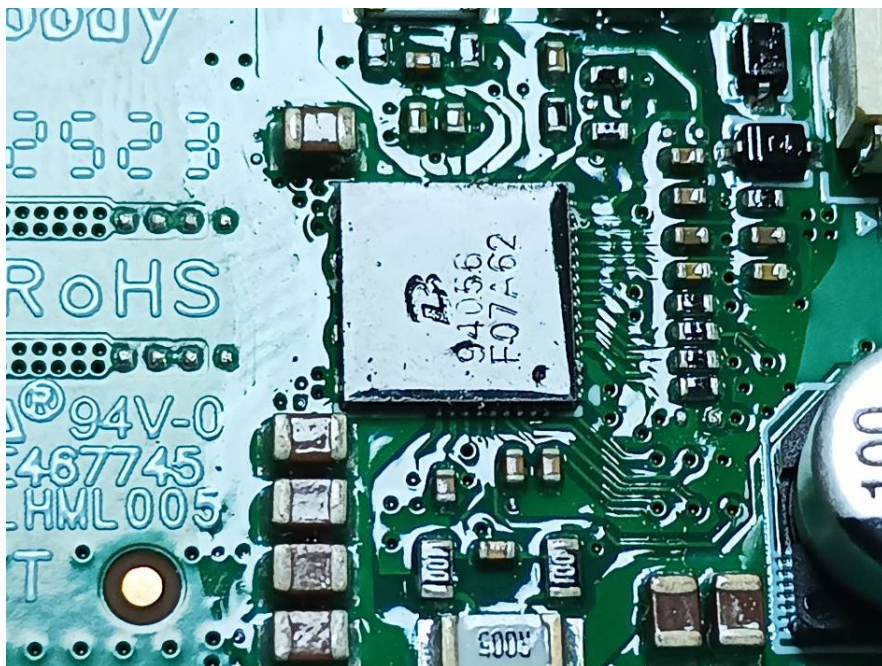

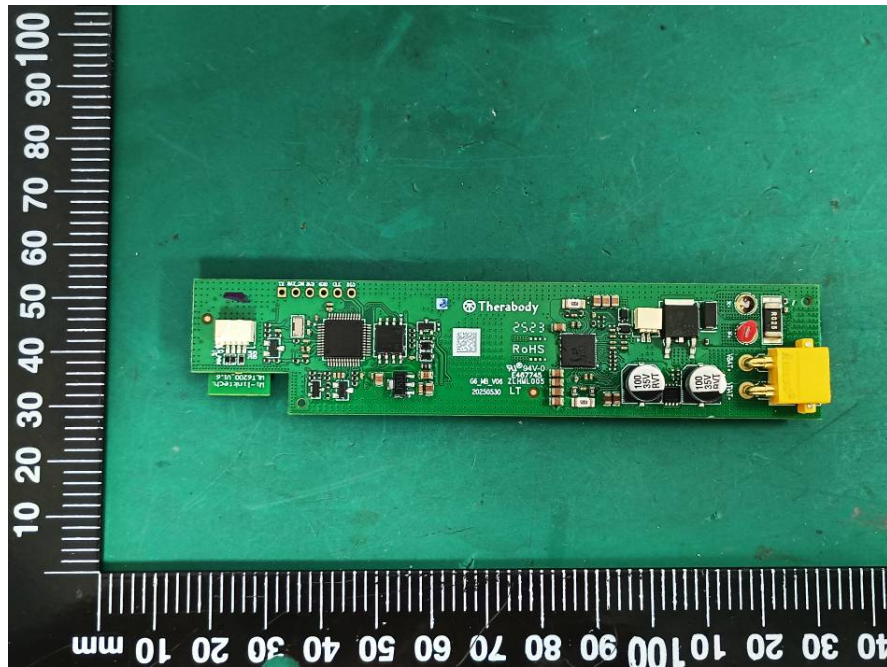

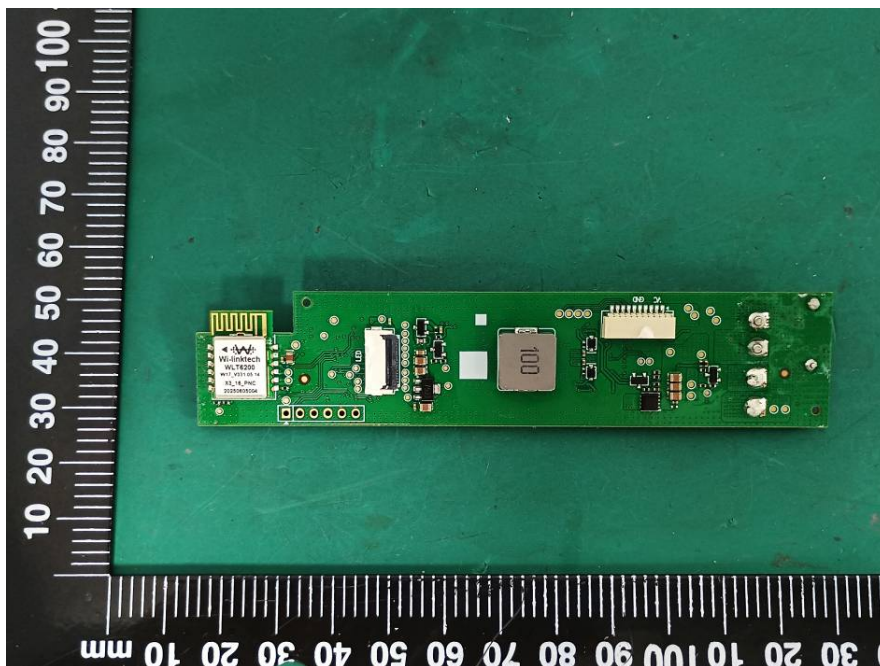

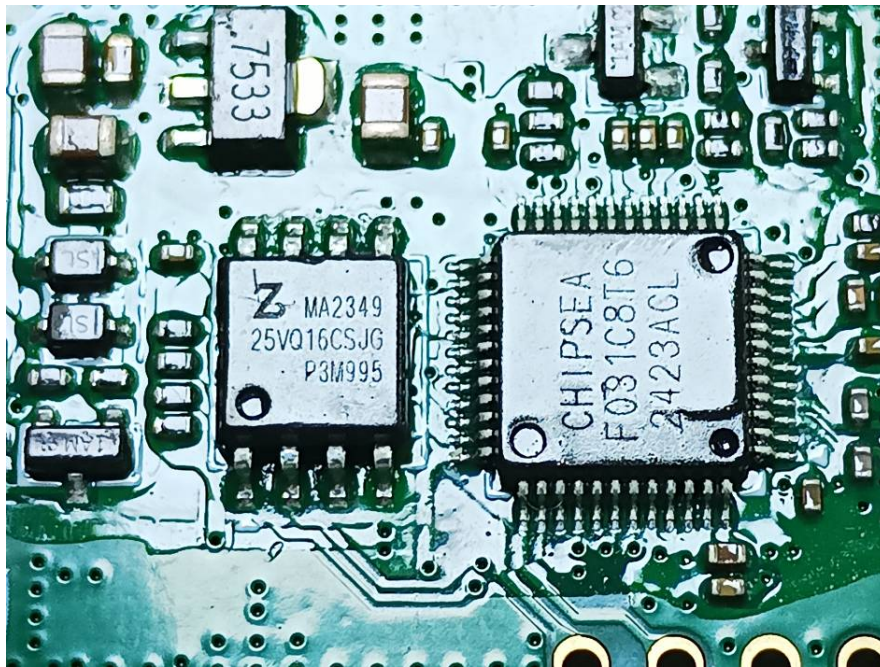

A close-up photograph of a Therabody motor unit. The unit is a rectangular, light-colored metal block with the brand name "Therabody" and model "BL4530-12V" stamped on its side. Below the model, a serial number "C252100184" is also stamped. A circular threaded cap is visible on the right side of the unit. The motor is mounted on a green printed circuit board (PCB) with various electronic components and wires visible.
