Indoor Wall Sconces

[Instruction Manual]

Please pay attention to the warning signs
Read the instructions with caution before operating
and keep it properly

CAUTION

1. Before assembly, place all parts out on a clean flat surface and inspect each part for defects that may have occurred during shipping.
2. Inspect wire insulation for any cuts, abrasions or exposed copper that may have resulted during shipping. If there are any defects in the wire, DO NOT continue to assemble. Please send an email to our Customer Service immediately.
3. Consult a qualified electrician if you have any electrical questions.
4. Never drape clothes over the lamp.
5. To reduce the likelihood of tipping over, we recommend placing the lamp behind furniture and keep children and pets away.
6. To prevent children from suffocating and choking, keep them away from packing materials.
7. Please keep this manual and hand it over when you transfer the product.

Packing List

Part	Description	Quantity
1	Indoor wall Sconce	2
2	Adapter	2
3	Remote Control	1
4	Accessories Package	1
5	Instruction Manual	1

ASSEMBLY INSTRUCTIONS

Before assembly, please confirm the disconnected status of the adapter and check the packing list to make sure all parts are present.

1. Unscrew the nuts on the left and right sides of the wall lamp box.
2. Find the installation location of the wall lamp you want and drill two holes on the wall according to the length of the back panel.
3. Place two rubber plugs
- 4-5. Fix the backplate to the wall with screws
6. Fix the wall lamp fixture and back panel together with the left and right screws on the wall box.

Finally, insert the adapter and turn on the power.
You can rotate the lamp post and adjust it to the angle you want.

Operating Instructions

TOUCH BUTTON FUNCTION

Press the switch once to turn the light ON

Short press this button to select color temperature (3000K/4500K/6000K)

At last, short press this button to turn off.

After the short press to turn it on, then Long press the touch button, the light will gradually become brighter or darker. When you think the brightness is OK, just move your finger away.

REMOTE CONTROL

The remote control can be dual controlled or separately controlled for Light 1/Light 2. For the first use, the remote control is already paired separately. You can press 1-ON/OFF or 2-ON/OFF to find the specific control light.

-  Dual control on and off
-  Night light mode (Can set CCT to 3000K, 30% brightness)
-  Brightness + (7 levels)
-  100% Brightness
-  Brightness - (7 levels)
-  Color Temperature - (7 levels)
-  Color Temperature + (7 levels)
-  30 minute timed
-  3 color temperatures: 3000K/4500K/6000K

- ⊞ Synchronization: All lights are on and the color temperature and brightness remain consistent (2700K 100% brightness)
- 1
