AI Smart Glasses User's Manual

FCC Warning

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.

Connection instructions

- This smart glasses is a stand-alone product, many functions must be connected with the cell phone before use.
- You can search "HeyCyan" in Google Play or iPhone App Store, download and install it to your cell phone.
- You can also scan the QR code and select the corresponding system version to download.

- Open the installed app and follow the instructions to complete the registration;
- Select [Home] and click [Connect Device];
- Select the name of the searched device [X1];
- When you hear the ding-dong sound, the connection is successful.

Warm tips

- This product supports photo and video recording, but the power consumption is relatively high, when the power is lower than 15%, the device will deactivate the photo and video recording function, when the power is lower than 20%, the device will pause the transmission of data to the cell phone, and can be resumed after charging.
- This product supports wifi to transfer data to cell phone and save it, it needs the cell phone to allow APP to use the relevant permissions before it can be realized.
