

Hybrid Electronic Steering Terminal

Model : HSA-PAC

FCCID : 2AUBBHSA-MAC

Name: AntelopWin

Scan Type: Hybrid Electronic
Steering

EIRP: 48.7dBW@0°

TX Frequency: 29.25~30GHz

POL: Full Polarization ,
Automatic Switching

Tracking Accuracy: $\leq 0.2^\circ$

Modem: XXXXX

WiFi/PWD: XXXXX

S/N: XXXXXXXXXXXXXXX

Types of Application: C0TP

Mechanical Steering Type: Auto

Frequency Band: Ka

Beam Switching Time: $\leq 3\text{ms}$

G/T: 11.4dB/K@0°

RX LO: 18.25/19.25 GHz

WEB IP/User/PWD: XXXXX

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Hybrid Electronic Steering Terminal

Model : HSA-PAC	S/N: XXXXXXXXXXXXX
FCCID : 2AUBBHSA-MAC	Type of Application: C0TP
Name: AstekWin	Mechanical Steering Type: Auto
Scan Type: Hybrid Electronic Steering	Frequency Band: Ka
EIRP: 48.7dBW@ 0°	Beam Switching Time: <3ms
TX Frequency: 29.25-30GHz	G/T: 11.4dB/K@ 0°
POL: Full Polarization	RX LO: 18.25/19.25 GHz
Automatic Switching	WEB IP / User / PWD: XXXXX
Tracking Accuracy: <0.2°	
Modem: XXXXX	
WiFi/ PWD: XXXXX	

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
