

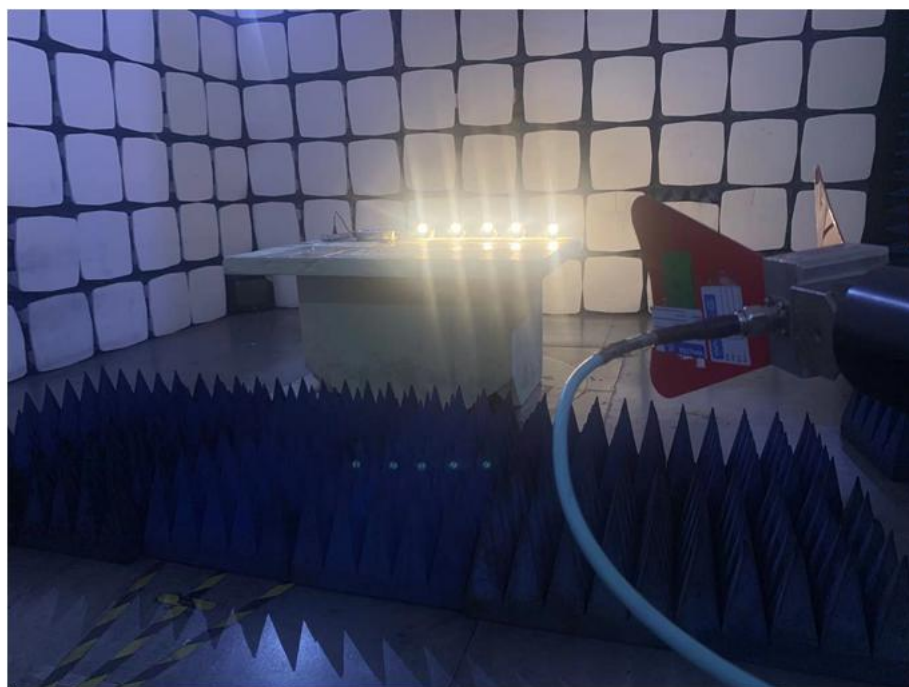

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer is placed on a wooden desk. To its right, a power supply unit is connected to a test device on a wooden table. The test device is illuminated by a row of five bright, circular lights. The background is a plain wall.
Radiation Emission View(Below 1GHz)	 A photograph showing a radiation emission test setup. A test device is placed on a wooden table, illuminated by a row of five bright, circular lights. The table is positioned in front of a large, white, square-patterned electromagnetic interference (EMI) shield. The floor is covered with a blue protective mat, and a yellow and black striped safety line is visible.
