Solder Board-Component View 9	 A photograph of a small electronic component, likely a sensor, mounted on a black printed circuit board (PCB). The component features two square green sensor elements labeled LM1 and LM2, a central microcontroller or processor labeled 2C20072, and various other electronic components like resistors and capacitors. The PCB is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler has two scales: one from 0 to 100 mm and another from 0 to 20 mm.
Solder Board-Component View 10	 A photograph of the same electronic component from a different angle, showing the underside or a different side. The component is mounted on a black PCB, which is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler has two scales: one from 0 to 100 mm and another from 0 to 20 mm.
