

[illegible]

C. Plug the cable on the battery assembly under the pushbutton cover. The pushbutton cover is attached to the keypad with the keypad wire with the white hole of the pushbutton and insert it into the keypad hole.

Pushbutton cover is inserted into the keypad hole.

29. Install the Mounting Plate.

1. Remove the mounting plate from the exterior assembly. Route the cable through the mounting plate.
2. Route the mounting plate into the interior facing side of the door.
3. Choose from the correct pushbutton (PT) and (AT), according to the intended use of the door, and attach it to the mounting plate and exterior assembly.
