1 Getting to know your device

- Front

2

- Back

3 Charging Base

- Front

- The charging base does two things:
  1.Charge your tracker.
  2.Equipped with Some beacon for indoor [illegible] positioning, when tracker leaves it, [illegible] when your pet is lastly.

4

- Back

- [illegible] device [illegible], powered on, and [illegible] end of the buckles of your pet, only where your pets spend most of their time.

5 Accessories

6 Insert SIM Card

- Use the [illegible] to take out back cover and insert a Micro SIM card. Make sure the battery is connected.

7 Charging your device

- The LED [illegible] turns red [illegible] when charging and turns [illegible] when fully charged.

- Please fully charge the battery for [illegible] 1 hour before using.
- Close the cover [illegible] after USB. [illegible] and a [illegible] sound indicates that the cover is in the correct [illegible] to not damage to GPS.

8 Switching on and off

- To turn the device on [illegible] in the charging base, the device [illegible] automatically turns on. [illegible] LED will flash [illegible] GPS and [illegible] then change when powering the device.
- To turn Off [illegible] hold the power button for 10 seconds [illegible] LED will [illegible] and the device will then LED off.

9 Attach the tracker to your pet's collar.

- Snap the buckle [illegible] Collar of the collar.
- Attach the tracker to the cat collar.

Now you only need 3 steps to complete.

Step 1: search tuckta from IOS APP store or Google play.

www.eviewgps.com

Step 2：Set Up an Account

- Enter your name, email, and mobile number(s).
- A confirmation email will be sent to the email address you have entered to sign in.

Step 3: Add your first cat and activate your cat tracker

- Add a cat and [illegible] the cat's [illegible].
- Add a device [illegible] and a unique Tracker ID number for activation.
- The Tracker ID is the [illegible] number on the bottom of your packing box.

After setting up the device and adding a cat, the Kaichu APP will guide you through other functions step by step.

- Now,You can start using your tracker.

Looking for Cat•Live Tracking

- Open kaichu APP
- [illegible] Live Tracking button to get [illegible] every 10 seconds [illegible] [illegible] [illegible].
- If you don't [illegible] you can also [illegible] [illegible] [illegible] and another tracking options.

- [illegible] into the Living Tracking mode,[illegible] [illegible] within seven days. [illegible] the cat tracker sleeps [illegible] every ten hours [illegible] your cat is out and about.

Home WiFi and Beacon

- The home [illegible] and beacons provide an home or [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] tracker's battery life. Beside this, you will [illegible] routine [illegible] when your pet [illegible] home.

Light Control

- Turn on the [illegible] to find which your cat in the dark. The [illegible] is flashing every second.

LED Meanings

- [illegible] every 10 seconds. The cat is outside.
- Flash once every 10 seconds The battery is running [illegible].

Waterproof

- The tracker is fully waterproof and can survive under 1 meter, but not all. The tracker is [illegible] [illegible] water [illegible] not, of course, can be used in the rain.

General Specifications

- Dimension: 58mm*17mm
- Weight: 19g (0.67oz) (incl.)
- Battery: Rechargeable Li-Po, 240mAh
- Charging: 2 [illegible] 5V DC
- Battery life: 5-10 days
- Waterproof: IP68

Warning:
Changes or modifications to this unit not expressly [illegible] could void the user's authority to operate the equipment.

NOTE:
This equipment has been tested and found to comply with the [illegible] limits for a Class B [illegible], pursuant to Part 15 of the [illegible]. These limits are designed to provide [illegible] protection against harmful interference in a residential [illegible]. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular [illegible]. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

Operating measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF exposure information (SAR)

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission [illegible] for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The exposure standard for wireless devices employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network.

[illegible] by [illegible] with the [illegible] requirements for exposure to [illegible] frequency [illegible] set forth for an [illegible] environment. The [illegible] should be used in [illegible] that minimize the [illegible] between the [illegible] and our body.

FCC RF Radiation Exposure Statement Caution:

This [illegible] must [illegible] with the FCC's RF exposure guidelines. [illegible] the product at [illegible] from nearby persons.
