Subject: FCC Limited-Single-Modular Approval Letter
FCC ID: 2AUMV-VRRP10W

To whom it may concern

We, VRMedia s.r.l., hereby declare that the product, FCC ID: 2AUMV-VRRP10W, has met the limited-single modular approval requirements of FCC rule part §15.212(a)(1) and this is shown in the table below.

Requirement	Compliance: Yes or No along with a justification
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	No. The RF section is not enclosed by a RF shielding can.
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes as demonstrated in original certification of FCC ID: 2ABCB-RP10W
The module must contain power supply regulation on the module	Yes as demonstrated in original certification of FCC ID: 2ABCB-RP10W
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c).	Yes as demonstrated in original certification of FCC ID: 2ABCB-RP10W

15.212(a), 2.929(b)			
The module must demonstrate compliance in a stand-alone configuration	Yes as demonstrated in original certification of FCC ID: 2ABCB-RP10W	The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	No. The module is subject to being installed in only the module manufacturer's host products.
The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee	Yes as demonstrated in FCC Change of ID for FCC ID: 2AUMV-VRP10W	The module must comply with RF exposure requirements	
Yes as demonstrated in this filing			

"Having a PCB-based wi-fi antenna, the LMA cannot be shielded for normal operation, therefore full compliance of the end product will always be ensured by performing EMC testing on each type of final product."

Yours faithfully,

Sandro Bacinelli
President
