Right ear Left ear

Charging

The bluetooth headsets and charging box must be fully charged before first time use.

1 Charge the bluetooth headsets

Magnetic contact recharging, the LED indicator will turn red when charging, and will turn off when the earbuds are fully charged.

Note:
1. When you are playing the music, blue LED light will flash slowly.
2. The red light will flash when the battery is low.

2 Charge the charging box

Use the USB cable to connect the adapter or computer USB socket to charge the charging box

Single headset operation

1 Power on/ Power off

Pick up the headsets from charging box, the two earbuds will start pairing each other automatically.
After above pair finished, Earbuds go pairing with smartphones within a certain distance.

Power on: Long press the Multifunction button for about 4 seconds, the indicator light will flash blue.
Power off: Long press the Multifunction button for about 4 seconds, the indicator light will flash red.

Turn on/off
Air play for iPhone

2 Pairing : first time to use

In power off status, long press the multifunction button for 6 seconds, the indicator lights will flash red and blue alternately, then turn on your cellphone bluetooth, search **"BT-03"** and click connecting, if ask for passkey, pls enter "0000".

Stereo headsets operation

1 Power on

Long press the Multifunction button for about 4 seconds, the indicator light will flash blue and a warning tone will be heard.

2 Power off: power off one headset only

Press and hold the Multifunction button for 4 seconds the LED will flash red and a notification sound will be heard accordingly. Only need to power off one headset, the other one will power off automatically if two headsets connected.

3 Pairing: first time use

1. In power off status, press and hold the Multifunction buttons of two headsets at the same time for 6 seconds, the red and blue LEDs will flash alternately, put two headsets closely and you can find two **"BT-03"** in your phone.
Please do not click any one of them to pair.

2. Two headsets will pair to each other automatically.
Master headset(L) flashes blue and red light alternately quickly, Slaver headset (R) flashes blue light slowly, you can see only one **"BT-03"** in your phone.

4 Search and connection

When master headset flashes red and blue alternately, Please wait several seconds until only one **"BT-03"** shows in your phone then click to connect, input the code "0000" if needed.

Notice:
Please do not click **"BT-03"** to connect before two headsets connected to each other. Otherwise the stereo function is not available.

5 Pairing successful

Master headset LED flash blue slowly and slaver headset flash blue two times, only one **"BT-03"** show in your phone it means connection succeed. (For previous paired headset and cellphone it will connect automatically after you power on)

FCC ID: 2AUJ0BT-03
FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Troubleshooting

Phenomenon	Reason	Solution
Starting-up failure	low battery	charge for the headset
No sound after paired	wrong paired	re-pairing
Red light shines during phone talking	low battery warning	please charge immediately
No indicator during charging	Headset didn't put into the charging cable well	check the headset if it's well put into
Shut down automatically	low battery	charge for the headset
Echo	volume is too high or environment is too noisy	adjust volume or change environment
Noise during phone calls	environment disturbance or headphone is too far away from device	change environment or shorten the distance between headphone and device
Low volume of the caller	wrong wear of headphone	adjust headphone position
Signal is not well interrupting	environment disturbance or headphone is too far away from device	far away from the interference signal or shorten the distance between headphone and device
