Product Description

1. Power ON/OFF - Start/Pause
2. Play/Stop/Phone Button
3. Volume Up/Next Song
4. Volume Down/Previous Song
5. Charging Port
6. Aux-in

Charging Instructions

- The Bluetooth® headphones comes with a built in rechargeable battery. Before using it for the first time we recommend you charge the battery fully. Only use the supplied USB Cord to charge the Bluetooth® headphones. Please charge for about 2-3 hours.
- Connect the USB charging cable to a computer USB port and the Micro USB plug to the charging port of the device. The red LED light turns on while the device is charging. It takes 2-3 hours for the unit to fully charge. When the battery is fully charged, the red light will turn off .

Turning ON/OFF the device

- Press and hold the Power button for 2-4 seconds to turn ON or OFF the device with the sound "Powering ON" or "Powering OFF".

Note: Make sure headphones have been fully charged 2-3 hours before pairing.

Pairing headphones

- Ensure the device is turned OFF, press and hold ON button for 2-4 seconds to turn ON, you will hear "Powering on". LED will flash rapidly. Make sure the Bluetooth® headphones and Bluetooth® device are no further than 3 feet apart.
- Activate the Bluetooth® function on your Bluetooth® device. (Please refer to the manufacturer's instructions for instructions on enabling Bluetooth® on your device)
- Once you have activated Bluetooth® on your device, select the "Air Maestro" from the list of available Bluetooth® devices.
- Once successfully connected you will hear "CONNECTED" and the LEDs will slowly flash blue.
- You can now start to use the device.
- Pairing mode on the device will last for around 10 minutes. If no devices are connected within 10 minutes the device will power OFF automatically.
- If connection is unsuccessful, turn off the device first and then re-connect following the above steps.

- Once you have connected the Bluetooth® headphones with a device, the headphones will remember this device and will pair automatically when the device's Bluetooth® is activated and in range. You do not need to re-pair any previously connected devices.
- The Bluetooth® headphones will attempt to automatically connect to the last device it was paired with when switched on. If you want to pair it with a new device, please follow the steps outline above.
- Once the headphones are paired with your device the music will transmit through the Bluetooth® headphones. Please refer to your device's user manual for further information.

Listening to Music

Once headphones are paired with your device you can stream music wirelessly through the Bluetooth® headphones. Should you encounter any problems while streaming please refer your device's user manual for further information.

Listening to Music using AUX-In Mode (cable not included)

- Insert the 3.5mm auxiliary cable to the Aux input of the speaker and the other end of the cable to the audio device (such as computer, tablet, etc.).
- Select your song at the source device and play.

(Note: Using this Aux-in mode, you do not need to turn on the headphone, and you need to control the volume increase/decrease, play/pause, next/previous track through your source device only.)

Warnings

Do not play music at excessive levels. Damage to hearing and/or equipment may result. Do not use outdoors in wet or in damp surroundings.

Care and Maintenance

Read the following recommendations before using the headphones. Following these will help you to enjoy the product for many years.

- Do not expose headphones to liquid, moisture or humidity to avoid the product's internal circuit from being affected.
- Don't use abrasive cleaning solvents to clean the device.
- Do not expose the device to extremely high or low temperature as this will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
- Don't dispose of the device in a fire as it will result in an explosion.
- Don't expose the device to contact with sharp objects as this will cause scratches and damage.
- Don't let the device fall on the floor. The internal circuit might get damaged.
- Don't attempt to disassemble the device as it may get damaged and will void the product's warranty.

Specifications

Bluetooth® specification: Bluetooth® 5.0
Operating distance: 33 Feet
Working time: Music: 3-4 hours
Talk: 3-4 hours
Charging input voltage: DC 5V
Charging time: About 2-3 hours
Driver unit : 40mm
Built-In Battery: 250mAh

Note: Battery life & charging time may vary based on usage & types of devices used.

FCC STATEMENT
1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposurere quirement.
The device can be used in portable exposure condition without RF striction.
