FCC Statement

- 15.19 Labeling requirements.
This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to user.

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio

IC STATEMENT

- This device complies with Industry Canada's licence-exempt RSS. Operation is subject to the following two conditions:
(1) This device must not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
Le présent appareil est conforme aux CNR d'Industrie Canada relatives aux appareils radio exempts de licence. L'exploitation de l'appareil ne doit pas produire de brouillage, et l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

- Specific Absorption Rate (SAR) information:
This product meets the government's requirements for exposure to radio waves. The SAR limit of USA (FCC) is 1.6 W/kg. This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio

IC RF Exposure Information and Statement

- The SAR limit of USA (IC) is 1.6 W/kg. This device was tested for typical body-worn operations over one gram of tissue. This device complies with the following two conditions:
(1) This device must not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
The use of accessories such as headphones, car kits, holsters and similar accessories that do not satisfy these requirements may not comply with IC RF exposure requirements, and should be avoided.

- This transmitter may operate with the antenna(s) documented in this filing in body-worn configurations. RF exposure compliance is limited to the specific belt-clip and antenna configurations as documented in this filing. The SAR limit of USA (FCC) is 1.6 W/kg. This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio

RED Statement

- 1. Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.
- 2. Do not use the product if it is connected to a USB interface of version USB 2.0 or higher.
- 3. Adapter shall be installed near the equipment and shall be easily accessible.
- 4. The operating temperature of the EUT can't exceed 40°C and shouldn't be lower than -20°C.
- 5. The plug considered as disconnect device of the product, 0mm from the back of the device.
- 6. The device complies with RF specifications when the device used at 5mm from back of the product, 0mm from the belt.

- Hereby, SINOTECH R&D GROUP LIMITED declares that this Mobile phone product is in compliance with the requirements of the other relevant provisions of Directive 2014/53/EU. This product is allowed to be used in all EU member states.
