

POWER FUEL PRO

10,000mAh
WIRELESS CHARGER
AND POWER BANK

User Manual

Specifications

Input: Type-C DC 5V/2A

Output: USB 1 DC 5V/1A , USB 2 DC 5V/2.4A

Total Output: DC 5V/2.4A MAX

Working temperature: 0°C ~ 40°C

Dimensions: 147.5 x 73 x 20mm

Weight: 270g

Certifications: FCC, CE

LCD Display Instruction

When charging the wireless charger and power bank (Input):

Once you connect the charger to a power source, the

screen will display the current power level. This number will continue to flash while the wireless charger and power bank is charging. When the power bank is fully charged, the LCD screen will display "100" to show that charging is complete.

When charging a device using the wireless charger and power bank (Output):

Once you connect your cable into the USB port/s, the screen shows the remaining power.

How to charge your mobile device:

1. Press the button on the top of the wireless charger

- and power bank to turn on
2. Simply connect the USB end of the charging cable to the wireless charger and power bank and the other end of the cable to your mobile device.
 3. Your mobile device will start to charge automatically.
 4. Once your device is fully charged, Disconnect the device from the charger.
 5. Press the button on the top of the wireless charger and power bank twice to turn off.

Product Features

High-transfer efficiency

High-safety and high-stability battery

Low self-discharge and long standby time

High compatibility - fits various types of mobile phones

Protection against overcharge and discharge as well as short circuit

Compact design and easy to use

Type-C to USB charging cable: 30 cm (included)

Warnings

1. Do not leave the device unattended while in use.
2. Do not expose the device to direct humidity or liquids.
3. Do not damage the casing of the device as this may cause overheating or explosion.
4. Do not expose the device to any heat sources, such as radiators, heating equipment, stoves or other heat-generating equipment.

5. Do not expose the device to direct sunlight or extremely high temperatures above 40°C, such as in a car on a hot day, as this may cause overheating or explosion.
6. Do not use the device in a location with a great level of static electricity, as this will damage the device and cause safety problems.
7. Do not use the device if it emits odor, excessive heat or becomes discolored or distorted.
8. Do not attempt to open, disassemble and or repair the device yourself. It may cause damage and will void the warranty. Please contact the support or the specialist dealer if the device is damaged or does not operate normally.

9. Please dispose of the device at a battery recycling station. It is not suitable for domestic waste disposal.
10. The battery capacity of the device will decrease if not in use for three months or longer but will restore to normal capacity after 3-4 charge and discharge cycles.
11. Store it in a cool, dry place when not in use.

Return Policy

Alpha Comm Enterprises, Inc. warrants this product as free of defects in material, design and workmanship for the period of one year from the original date of purchase. The warranty is limited to the original purchaser. If during the period of warranty this product proves defective under normal use and service, you should follow the instructions below:

The liability of Alpha Comm Enterprises, Inc. and its appointed repair company is limited to the cost of repair and/or replacement of the product under warranty. Products sent for warranty service must be accompanied by a copy of the original purchase receipt, the original box, materials and accessories. All cost associated with the return of the product under warranty are the responsibility of the original purchaser. A Shipping and Handling Fee will apply in order for Alpha Comm Enterprises, Inc. to ship out a new/refurbished product

to customer. Alpha Comm Enterprises, Inc. will not assume any responsibility for any loss or damage incurred in shipping.

One Year Limited Warranty

All Alpha Comm products come with a warranty effective one year starting on the date of the original purchase. This warranty covers all mechanical and electrical problems, except those arising from abuse or tampering. Return the defective accessory with proof of purchase to Alpha Comm. Contact us at 1-888-951-0909 or warranty@alphacomm.com.

Instrucciones de la Pantalla LCD

Cuando este cargando (Entrada):

Una vez que conecte el cargador a una fuente de energía, la pantalla mostrará el nivel de energía actual.

Este número continuará parpadeando mientras se carga el cargador inalámbrico y el banco de energía. Cuando el banco de energía está completamente cargado, la pantalla LCD mostrará "100" para mostrar que la carga se ha completado.

Al cargar un dispositivo usando el cargador inalámbrico y el banco de energía (Salida):

Una vez que conectes el cable al puerto USB, la pantalla mostrará el poder restante.

Como cargar tu equipo móvil

1. Presione el botón en la parte superior del cargador

- inalámbrico y el banco de energía para encender
2. Simplemente conecte el extremo USB del cable de carga al cargador inalámbrico y al banco de energía y el otro extremo del cable a su dispositivo móvil.
 3. Tu dispositivo móvil iniciará a cargar automáticamente.
 4. Una vez tu dispositivo esté completamente cargado, desconecta el dispositivo del cargador.
 5. Presione el botón en la parte superior del cargador inalámbrico y power bank dos veces para apagar.

Características del Producto

Eficiencia de alta transferencia

Batería de alta seguridad y alta estabilidad

Baja descarga y larga duración en espera

Alta compatibilidad - se ajusta a varios tipos de teléfonos móviles

Protección contra sobrecarga y descarga así como corto circuito

Diseño compacto y fácil de usar

Cable de carga Tipo-C a USB: 30 cm

Advertencias

1. No dejes el dispositivo desatendido mientras esté en uso.
2. No expongas el dispositivo a humedad directa o líquidos.
3. No dañes la cubierta del dispositivo ya que esto podría provocar un sobrecalentamiento o una explosión.

4. No expongas el dispositivo a una fuente de calor, tal como radiadores, equipo de calentamiento, estufas u otros equipos generadores de calor.
5. No expongas el dispositivo directamente a la luz del sol o a temperaturas extremadamente altas arriba de 40°C, así como adentro de un auto en un día caluroso, ya que esto puede ocasionar sobrecalentamiento o explosión.
6. No uses el dispositivo en un lugar con gran nivel estática eléctrica, ya que esto dañará el dispositivo y ocasionará problemas de seguridad.
7. No uses el dispositivo si emite olores, calor excesivo o si se descolora o se distorciona.

8. No intentes abrir, desarmar ni reparar el dispositivo tu mismo. Te puede causar daño y anulará la garantía. Por favor contacta al distribuidor especializado o de soporte si el dispositivo esta dañado o si no funciona correctamente.
9. Por favor disponga del dispositivo en una estación de reciclaje de baterías. No es apta para disposición de basura doméstica.
10. La capacidad de la batería disminuirá si no se usa en tres meses o más pero regresará a su capacidad normal después de 3-4 ciclos de carga descarga.
11. Guardela en un lugar seco, fresco cuando no esté en uso.

Política de devolución

Alpha Comm Enterprises, Inc. garantiza que este producto estará libre de defectos de material, diseño y fabricación durante un período de un año desde la fecha de compra original. La garantía se limita al comprador original. Si durante el período de garantía, este producto resulta defectuoso en condiciones de uso y servicio normales, siga las instrucciones a continuación.

La responsabilidad de Alpha Comm Enterprises, Inc. y su compañía de reparación designada se limita al costo de la reparación y / o sustitución del producto en garantía. Los productos enviados al servicio de garantía deben ir acompañados de una copia del recibo de compra original, la caja original, materiales y accesorios. Todos los costos asociados con la devolución del producto en garantía son la

responsabilidad del comprador original. Un cargo de manejo y envío se aplicará para que Alpha Comm Enterprises, Inc. pueda enviar un producto nuevo/restaurado al cliente. Alpha Comm Enterprises, Inc. no asume ninguna responsabilidad por cualquier pérdida o daño sufrido durante el envío.

Garantía limitada de un año

Todos los productos Alpha Comm están acompañados de una garantía de un año a partir de la fecha de compra original. Esta garantía cubre todos los problemas mecánicos y eléctricos, salvo los derivados del abuso o manipulación. Regrese el accesorio defectuoso junto con el comprobante de compra a Alpha Comm contactarnos al 1-888-951-0909 o envíenos un email a warranty@alphacomm.com.

FCC Statement

This device complies with part 15 and part 18 of the FCC Rules. Operation is Subject To the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 and part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.

This device complies with Part 18 of the FCC Rules. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and any other radio device.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
