SAFETY INSTRUCTIONS

MAIN CHARACTERISTICS OF YOUR BIG BANG e WATCH

The BIG BANG e is a luxury watch which includes Wi-Fi, Bluetooth® and contactless payment functions. It is not intended to be used as a medical device or a fitness tracker.

Wear OS by Google works with phones running Android 6.0+ (excluding Go edition) or iOS 12.0+. Supported features may vary between platforms and countries. Wear OS by Google is a trademark of Google LLC.

The BIG BANG e requires the use of the charging accessories provided with it. The accessories provided with your BIG BANG e contain a micro USB cable, a charging cradle, and a wall plug. You will find further details on electrical safety recommendations concerning the use of the charging accessories below.

You can disable the watch Bluetooth®, Wi-Fi, and contactless payment functions by following the steps below:

If your screen is dim, touch the screen to wake up the watch;

- Swipe down from the top of the screen;
- Find the Settings icon (⚙️), then touch to select;
- Go to "Connectivity", touch Wi-Fi/Bluetooth®/NFC settings, depending on which you want to turn off;
- If Wi-Fi/Bluetooth®/NFC is set to Automatic, tap the toggle switch next to either Wi-Fi/Bluetooth®/NFC to turn it off or disable it.

IMPORTANT SAFETY PRECAUTIONS

Please note that failure to comply with the following guidelines may cause malfunctions or be hazardous to the user and/or void or reduce the entitlement under the warranty and/or US Limited Warranty.

a) Using the BIG BANG e and its accessories safely

Keeping your BIG BANG e safe

(i) General

Do not use or store the BIG BANG e in dusty, dirty areas as its components may be damaged.

Do not store the BIG BANG e in warm areas or under direct sunlight. High temperatures can shorten the life of electronic devices, damage batteries, cause them to become inoperative, and warp or melt certain plastics.

Do not store the BIG BANG e in cold areas. When the BIG BANG e subsequently warms up to its normal temperature, moisture can form inside the BIG BANG e, which may damage the electronic circuits.

Do not attempt to open the BIG BANG e's casing. Non-expert handling of the BIG BANG e may cause damage to your BIG BANG e, and may void the warranty and/or US Limited Warranty.

Do not drop or knock the BIG BANG e.

Do not place heavy objects on it.

Do not use sharp objects on the screen.

Do not use excessive force on the screen. Rough handling may damage the internal circuits.

Do not use harsh chemicals, cleaning solvents or strong detergents to clean the BIG BANG e.

While listening to your device with headphones, make sure you have set the volume to a reasonable level in order to avoid damage to your ears.

If the BIG BANG e or any of its accessories are not working properly, take them to your nearest HUBLOT store. The personnel there will assist you, and if necessary and possible, arrange for the BIG BANG e to be repaired.

In addition to the above, please refer to your instructions and warranty manual for information on the cables, charging cradle, wall plugs and battery electrical safety.

(ii) Exposure to liquid

Try to minimize exposing the BIG BANG **e** to these substances: soap, detergent, acids or acidic foods, and any liquids other than fresh water, such as salt water, soapy water, pool water, perfume, insect repellent, lotions, sunscreen, oil, adhesive remover, hair dye, or solvents.

The BIG BANG **e** has a water resistance rating of IP68 under IEC standard 60529.

If your BIG BANG **e** has a leather strap, be aware that these straps are not water resistant.

The following may affect the water resistance of the BIG BANG **e** and should be avoided:

- Submerging the BIG BANG **e** watch in water for long periods of time;
- Dropping the BIG BANG **e** or subjecting it to impacts;
- Exposing the BIG BANG **e** to pressurized water or high velocity water, for example, water skiing, wake boarding, surfing, jet skiing, etc.
- Wearing the BIG BANG **e** in a hot or humid environment, such as a sauna or steam room.

(iii) Using buttons, Digital Crown, connectors, and ports

Never apply excessive pressure to a button on the BIG BANG **e**, or force a charging connector into a port, because this may cause damage that is not covered under the warranty and/or US Limited Warranty. If the connector and port do not join with reasonable ease, they probably do not match. Check for obstructions, and make sure that the connector matches the port and that you have positioned the connector correctly in relation to the port.

Certain usage patterns can contribute to the fraying or breaking of cables. When attached to a charging unit, the cable, like any other metal wire or cable, is subject to becoming weak or brittle if repeatedly bent in the same spot. Aim for gentle curves instead of angles in the cable. Regularly inspect the cable and connector for any kinks, breaks, bends, or other damage. Should you find any such damage, discontinue use of the cable.

Discoloration of the accessories (cable, plugs) after regular use is normal. Dirt, debris, and exposure to moisture may cause discoloration. If your accessories become warm during use or if the BIG BANG **e** does not charge or sync, disconnect the cable from the power adapter and clean the accessories with a non-abrasive, dry, lint-free cloth. Do not use liquids or cleaning products when cleaning the accessories.

Discoloration of the charging surface of the BIG BANG **e** charging accessories may occur after regular use. Cleaning the charging surface may reduce, or prevent, such discoloration, and will help to prevent damage to your charger and the BIG BANG **e**. To clean the charging surface, disconnect the charger from both the BIG BANG **e** and the power adapter and wipe with a damp, nonabrasive cloth. Dry with a non-abrasive, lint-free cloth before resuming charging. Do not use cleaning products when cleaning the charging surface.

b) User health protection

As a general recommendation, the BIG BANG e is not intended for use where the failure of the device could lead to death, personal injury, or severe environmental damage.

If you have any questions concerning your BIG BANG e, its batteries and/or accessories' chemical contents, do not hesitate to contact us via our email address help@hublot.com or by mail at the following address: HUBLOT SA — HEADQUARTERS & MANUFACTURE — Ch. de la Vuarpillière 33 — 1260 NYON — SWITZERLAND (TEL.: +41 (0)22 990 90 00).

The BIG BANG e and the included BIG BANG e apps are not medical devices. They are not designed or intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease. Before starting or modifying any exercise program using the BIG BANG e, consult your physician. Be careful and attentive while exercising. Stop exercising immediately if you feel pain, faint, dizzy, exhausted, or short of breath. By exercising, you assume all associated inherent risks including any injury that may result from such activity. If you have any medical condition that you believe could be affected by the BIG BANG e (for example, seizures, blackouts, eyestrain, or headaches), consult your physician prior to using the BIG BANG e.

Some people may experience reactions to certain materials used in jewelry, watches, and other wearable items that are in prolonged contact with their skin. This can be due to allergies, environmental factors, extended exposure to irritants like soap, sweat, or other causes. You may be more likely to experience irritation from any wearable device if you have allergies or other sensitivities. If you have known skin sensitivities, please take special care when wearing the BIG BANG e. You may be more likely to experience irritation from the BIG BANG e if you wear it too tightly. Remove the BIG BANG e periodically to allow your skin to breathe.

Keeping the BIG BANG e straps clean and dry will reduce the possibility of skin irritation. If you experience redness, swelling, itchiness, or any other irritation or discomfort on your skin around, or beneath, your BIG BANG e, please remove the BIG BANG e and consult your physician before resuming wear. Continued use, even after symptoms subside, may result in renewed or increased irritation.

The materials used in the BIG BANG e and the BIG BANG e straps meet the standards set for jewelry by the U.S. Consumer Product Safety Commission, applicable European regulations, and other international standards.

During software updates and other limited circumstances, the BIG BANG e may overheat, causing the exterior portions of the watch to feel warmer than usual to the touch. In this event, do not hesitate to remove the BIG BANG e from your wrist for a brief moment to avoid irritation.

If you use an electronic medical device, please refer to the "Interaction with the environment" section below.

c) Integrity of people in the surroundings

(i) Protection of children

Keep the BIG BANG e and its accessories out of the reach of children. In particular, some BIG BANG e straps may present a choking hazard to small children. Keep these straps away from small children.

(ii) Walking and driving safely

Do not use your BIG BANG e while driving.

The BIG BANG e generates, uses, and can radiate radio frequency signals. Radio frequency signals might affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle. If any equipment has been added to your vehicle, you should also consult the manufacturer of that equipment for information on radio frequency signals.

Do not use your BIG BANG e while walking or engaging in any activity that requires your full attention. Inattention to vehicular traffic or other pedestrian hazards could result in serious injury, death or property loss.

ELECTRICAL SAFETY

a) Accessories

Use only those accessories approved by HUBLOT. Using any accessories not approved by HUBLOT for use with your BIG BANG e might invalidate any approval or warranty and/or US Limited Warranty applicable to your device and/or might result in the BIG BANG e becoming inoperative and/or dangerous.

b) Charging accessories

Your BIG BANG e is provided with the following charging accessories: micro-USB cable, charging cradle and wall plug. Use only approved charging accessories.

When a charger is not in use, disconnect it from the power source.

It is important to keep the BIG BANG e and the accessories provided therewith in a well-ventilated area when charging.

Use the charging accessories provided with the BIG BANG e or any other HUBLOT approved charging accessories only from the type of power source indicated on the label. Before you use any power supply, verify that the mains (AC) voltage is in accordance with the voltage printed on the power supply.

Do not overload power outlet, extension cords or convenience receptacles because this might result in a risk of fire or electric shock. To reduce the risk of damage to the cord or the wall charger, pull on the wall charger rather than the cord when you disconnect the charging accessory from the power outlet or power source.

Using damaged BIG BANG e charging accessories, or charging when moisture is present, can cause fire, electric shock, injury, or damage to the user or the BIG BANG e or other property. Be sure the BIG BANG e and the charging accessories are dry before charging. When you use the charging accessories to charge the BIG BANG e, make sure that the USB plug is fully inserted into the adapter before you plug the adapter into a power outlet. Avoid charging the BIG BANG e in direct sunlight. Do not wear the BIG BANG e while it is charging.

Avoid prolonged skin contact with the connector when the cable is plugged into a power source because it may cause discomfort or injury. Sleeping or sitting on the connector should be avoided.

In addition to the above:

- Do not expose the charger to water while in use; this may cause the charger and the BIG BANG e to fail;
- Carefully insert the USB cable into the charger base, forcing the cable in the wrong direction will damage the charger;
- It is recommended to charge the BIG BANG e in a cool place, in order to prevent overheating of the BIG BANG e;
- It is not recommended to charge the watch in a place where there is direct sunlight on the BIG BANG e, as this may cause overheating;
- When the BIG BANG e is placed on the charger, and the charger is plugged into a wall, a charging screen will be displayed on the face of the BIG BANG e, indicating the percentage of battery already charged;
- It is recommended to remove the BIG BANG e from the charger once it is fully-charged;
- If the BIG BANG e fails to charge, check that the wall plug is fully inserted into the wall outlet, the USB cable is firmly attached to the charger, and the watch is properly placed on the charger;
- If the BIG BANG e still does not charge, make sure that the watch is correctly oriented on the charger and make sure the back of the BIG BANG e is clean;
- The charger contains a small magnet to ensure proper alignment and attachment of the BIG BANG e to the charger. Please keep the charger away from metal.

c) Battery safety

Your BIG BANG e contains a built-in battery that is not replaceable. Do not attempt to replace your product's battery (for information on the recycling of the battery, please refer to the "Maintenance and disposal" section below).

In any event:

- Do not expose the battery to fire or other external heat sources, such as hot plates, stove tops, space heaters or ovens, as this could cause fire or explosion;
- Do not dispose of batteries in a fire;
- Never use any charger or battery that is damaged in any way. Use the battery only for its intended purposes. Do not short-circuit the battery;
- Do not leave the battery in hot or cold places.

INTERACTION WITH THE ENVIRONMENT

a) Interference with electronic equipment and magnetic characteristics

Your BIG BANG e, like any radio-transmitting equipment, may interfere with other electronic devices.

Switch off your device on airplanes or any place where it is requested (hospitals, gas stations, etc.).

In any case, make sure you are using your device where it is authorized for use and in an authorized manner.

In particular, your BIG BANG e may interfere with pacemakers, defibrillators, or other medical devices. Maintain a safe distance of separation between your medical device and the BIG BANG e and accessories. Consult your physician and medical device manufacturer for information specific to your medical device. Stop using the BIG BANG e and its accessories if you suspect they are interfering with your pacemaker, defibrillator, or any other medical device.

Keep key cards and credit cards away from the BIG BANG e and its accessories.

b) Dangerous areas

Charging or using the BIG BANG e in any area with a potentially explosive atmosphere, such as in areas where the air contains high levels of flammable chemicals, vapors, or particles (such as grain, dust, or metal powders), may be hazardous.

Obey all signs and instructions.

c) Operating and storage temperatures

The normal operating temperature of the BIG BANG e is from 0 to 40° C (32 to 104° F).

The BIG BANG e can be damaged and battery life shortened if stored or operated outside of these temperature ranges. Avoid exposing the BIG BANG e to dramatic changes in temperature or humidity. If the interior temperature of the BIG BANG e exceeds normal operating temperatures (for example, in a hot car or in direct sunlight for extended periods of time), you may experience the following as it attempts to regulate its temperature:

- Charging may slow or stop;
- The display may dim;
- Some data transfer may be paused or delayed;

The BIG BANG e and its accessories comply with applicable surface temperature standards and limits. However, even within these limits, sustained contact with warm surfaces for long periods of time may cause discomfort or injury.

The BIG BANG e and its accessories will become warm when plugged into a power source. Use common sense to avoid situations where your skin is in contact with the BIG BANG e and/or its accessories for long periods of time when they are plugged in. For example, while the BIG BANG e is charging or while its accessories are plugged into a power source, do not sleep on them or place them under a blanket, pillow, or your body. Take special care if you have a physical condition that affects your ability to detect heat against the body. Remove the BIG BANG e if it becomes uncomfortably warm.

If the defect relates only to a part of the BIG BANG e you can only claim replacement of this part. In case such replacement or repair is not possible, you can withdraw from the contract. The discount is also available to you if the seller fails to provide a remedy for your claim within a reasonable time or where such a remedy would cause substantial difficulties to you.

Your claims under Czech law can be raised with the seller from whom you bought the BIG BANG e within the statutory time limits as stated above. If you want to exercise your rights, you have to notify the seller without undue delay from when the defect occurred, describe the nature of the

He is also held liable for any lack of conformity caused by the packaging or the assembly instructions, or the installation if he assumed responsibility therefor or had it carried out under his responsibility" and "the product conforms the contract:

1. If it is suitable for the purpose usually associated with such a product and, if applicable: correspond to the description given by the seller and has the features that the seller presented to the buyer in the form of a sample or model;
2. If it has the features that a buyer might reasonably expect to have considering the public statements made by the seller, the producer or his representative, including advertising and labeling;
3. Or if it has the features defined by mutual agreement between the parties or be suitable for any special requirement of the buyer which was made known to the seller and which the latter agreed to". In addition, an "action resulting from a lack of conformity lapses two years after delivery of the product" (article L217-12 of the French Consumer Code).

Specific additional terms of warranties applicable to Germany

The conditions of the international limited warranty do not apply to rights granted under statutory warranty and consumer protection laws. This international limited warranty is in addition to other rights and remedies available to you under the laws of Germany, which cannot be excluded. Nothing in this international limited warranty purports to limit, modify, take away from, disclaim, exclude or suspend any mandatory warranty requirements provided or non-excludable statutory rights you may have under the laws of Germany, in particular the statutory warranty and consumer protection rights under Sec. 434 ff., 474 ff. German Civil Code (Bürgerliches Gesetzbuch, BGB).

Irrespective of the rights granted under the international limited warranty, if your BIG BANG e is defective and does not conform to contract at the time of delivery, you are entitled by Sec. 434 ff. 474 ff. BGB, at your choice, to a replacement or to have the BIG BANG e repaired. If we are not able to replace or repair your defective BIG BANG e or refuse to do so, you may be entitled to revoke the purchase agreement, reduce the purchase price or demand damages or reimbursement of futile expenditure.

In addition to the conditions set forth in this warranty form above, the international limited warranty does not apply in the events of a lack of fitness for a particular purpose and uninterrupted or error-

free operation. The statutory warranty and consumer protection rights, in particular Sec. 434 ff. 474 ff. BGB, are not limited, modified, taken away, disclaimed, excluded or suspended thereby. HUBLOT shall not be liable for any incidental, special, punitive or consequential damages arising out of or in connection with the international limited warranty. In this respect, HUBLOT shall only be liable on the merits of willful misconduct (Vorsatz) or gross negligence (grobe Fahrlässigkeit). Actions intended to enforce the lack of conformity not hidden by HUBLOT with fraud shall in any event lapse after twenty-six months from delivery of the HUBLOT goods. For more details about the correct way to put the watch on the charging cradle, you can have a look at "Recharge the battery" section of the user guide leaflet.
