Solder Board-Component View 4	 A photograph of a small, dark, rectangular electronic component with gold-colored solder pads. The component is placed on a blue background next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned near the 10 mm mark on the vertical ruler and the 20 mm mark on the horizontal ruler.
Solder Board-Component View 5	 A photograph of a small, orange, rectangular electronic component with gold-colored solder pads. The component is placed on a blue background next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned near the 10 mm mark on the vertical ruler and the 20 mm mark on the horizontal ruler.

Solder Board-Component View 10	 A photograph of a small, rectangular printed circuit board (PCB) component, likely a battery management IC or similar, resting on a blue surface. The component is black with various electronic components, including a large black square chip, several smaller chips, and surface-mount components. It is positioned next to a black ruler with white markings, showing its dimensions. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 11	 A photograph of a yellow rectangular battery component, likely a Li-ion battery, resting on a blue surface. The battery has a white label with text and a QR code. It is positioned next to a black ruler with white markings, showing its dimensions. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10).
