Solder Board-Component View 5	 A photograph of a solder board component, labeled 'View 5'. The component is a small, rectangular, dark-colored board with a gold-colored flex cable attached to one side. It is positioned on a blue background next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 25 mm wide and 15 mm high.
Solder Board-Component View 6	 A photograph of the same solder board component, labeled 'View 6'. This view shows the component from the opposite side, revealing a gold-colored flex cable and a small, rectangular, dark-colored board with various electronic components and markings. It is positioned on a blue background next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 25 mm wide and 15 mm high.

Model: HCP-2TS25E (2#), Z5, HPRT Z5

EUT Housing and Board View 1	 A photograph showing the EUT housing and board assembly. The green plastic housing is open, revealing the internal components, including a blue battery and various electronic components. A black ruler is placed next to the assembly for scale, showing measurements in millimeters.
Solder Board-Component View 1	 A photograph showing the solder board-component assembly. The black printed circuit board (PCB) is populated with various electronic components, including a large integrated circuit (IC) labeled V837S, a 2R2 resistor, and a 220 capacitor. A black ruler is placed next to the assembly for scale, showing measurements in millimeters.

Solder Board-Component View 4	 A photograph of a small, dark-colored printed circuit board (PCB) component, identified as a ZS-FILTERKEY-CBA. The component is shown against a blue background with a black ruler for scale. The ruler has markings in millimeters (0 to 50 mm) and centimeters (10 to 40 mm). The PCB features various components, including a large rectangular component labeled '0-94V-0', a smaller component labeled '2-20241023', and several test points labeled TP1 through TP32. The component is oriented vertically, with the ruler placed horizontally below it.
Solder Board-Component View 5	 A photograph of the same PCB component from a different perspective, showing the underside. The component is oriented horizontally, and the ruler is placed vertically to its left. The underside of the PCB shows a large, square, copper-colored component, likely a filter or a capacitor, and several test points labeled TP1 through TP32. The component is oriented horizontally, with the ruler placed vertically to its left.

Solder Board-Component View 6	 A photograph of a small, rectangular electronic component, likely a sensor or microcontroller, mounted on a blue solder mask. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component has a gold-colored flex cable attached to one end and a small, square, dark-colored sensor area. The component is labeled with "93A-WR-0-96-F-EC23840" and "PAT. 6718-7004".
Solder Board-Component View 7	 A photograph of a blue rectangular component, likely a battery or a large capacitor, mounted on a blue solder mask. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component has a white label with a barcode and text. A multi-colored ribbon cable is attached to the component. The component is labeled with "WALTEK" and "WALTEK".
