Solder Board-Component View 3	 A photograph showing a small electronic component, likely a sensor or microcontroller, mounted on a blue textured surface. The component is rectangular with a black top and a gold-colored bottom. It features a circular lens or window and several small components. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mm mark at the top and the 100 mm mark at the bottom.
Solder Board-Component View 4	 A photograph showing the same electronic component from a different angle, highlighting the gold-colored bottom. The component is mounted on the same blue textured surface. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mm mark at the top and the 100 mm mark at the bottom.

Solder Board-Component View 5	 A photograph of a small electronic component, identified as a solder board, placed on a blue textured surface. The component is rectangular with a black PCB and features a gold-colored connector on one side. It is surrounded by a black ruler with white markings in millimeters, showing dimensions from 0 to 100 mm.
Solder Board-Component View 6	 A photograph of a small electronic component, identified as a solder board, placed on a blue textured surface. The component is rectangular with a black PCB and features several gold-colored connectors on one side. It is surrounded by a black ruler with white markings in millimeters, showing dimensions from 0 to 100 mm.
