| <div>Solder<br/>Board-Component<br/>View 1</div> |  A photograph of a small green printed circuit board (PCB) component, likely a microcontroller or sensor module, placed on a blue textured surface. The component is rectangular with various electronic components soldered onto it, including a large black integrated circuit (IC) in the center. It is positioned next to a black L-shaped ruler with white markings in millimeters. The ruler shows the component is approximately 20 mm wide and 15 mm high. |
| <div>Solder<br/>Board-Component<br/>View 2</div> |  A photograph of the same green PCB component from a different angle, showing its underside. A large black square area with a white circular target pattern is visible, possibly a thermal pad or a mounting area for a component. The component is placed on the same blue textured surface next to the same black L-shaped ruler. The ruler indicates the component is approximately 20 mm wide and 15 mm high.                                                 |
