Variant description

FCC ID: 2AUXS-CCS2SBXQ

Our product CCS2SBXQ has two variants. They are both identical in HW and SW. The only difference is that NA2 uses two internal antennas on the PCB, whereas NA1 uses only one of the internal antennas, the second antenna is ported outside to be used with an external antenna in a vehicle display.

Both devices have been tested for this FCC approval, any antenna of both devices is located more than 20cm away from any human body.

Therefore, the regulatory statements in the user guide are valid for this filing. The end user cannot differentiate between the mounted variants in his vehicle.

Sincerely

pki, BOSCH, DE, D, I, Dirk.Zamow
