

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer is placed on a wooden workbench, with a red cable connected to it. In the center, a power supply unit sits on the floor, connected to the workbench. On the right, another wooden workbench holds a small white camera on a stand and a power strip.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are lined with white, square-shaped electromagnetic interference (EMI) absorbers. A yellow test fixture is mounted on a metal stand in the center of the chamber. The floor is marked with yellow and black safety tape.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
