Columbia, MD 21046

Dear Sir or Madam:

The chip nRF51802 installed in our product Goki SmartProducts (model name: G1, FCC ID: 2AV3P-G1), which support BLE and 2.4G SRD functions . But, for the product, it only activates BLE function, the 2.4G SRD function is disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely Yours,

Signature: *Baohong Wan*
