Introduction

Dear customer, congratulations on buying One8 Smart tee. Please read this user manual carefully. Please make sure to check the latest version of the manual on the psq.club/help website.

Smart Tee Components

The complete <Smart Apparel> consist of the followings:

1. Smart T-Shirt

Special training top with built-in sliding ECG system that monitors hearts rhythms.

2. Smart Module

By connecting to the T-Shirt, the device records and store the electrocardiogram, heart rate and workout data.

2. One8 App

The application helps you to perform your workouts, summaries your health and workout data.

5. Connect Smart Module with Smart Tee

Now insert the smart module into socket on the T-shirt strap as shown below.

6. Wear T-shirt

Please moist the electrode with water before any workout.

T-shirt washing Instructions

1. Machine Wash, Cold, Gentle (30 C)
2. DO NOT bleach
3. DO NOT wring, dry flat
4. DO NOT iron
5. DO NOT tumble dry

We recommend to wash the T-shirt before your first workout. Wash it with like colors as during laundering color-bleeding may occurs.

Intended uses and features

Smart Tee is intended to use during physical activity, primarily running and walking. With each heartbeat, an electrical impulse travels through your heart. If these impulses are captured properly, a waveform, so called electrocardiogram can be outlined. This waveform reflects the electrical activity of the heart and from its shape numerous heart specific parameters can be read by a professional (PA or cardiologist). To monitor these parameters not only at rest but during physical activity is extremely important as some heart issues only become apparent during exercise. By using Smart Tee on regular basis, the body-worn 2-lead fitness monitoring device your heart's electrical activities are captured, safely stored. Please note do not use Smart Tee for any purpose other than as specified in this User Manual. Smart Module is only compatible with Smart Tee.

Important Safety Information

Please read the User Manual carefully before using Smart Module. This module is not a medical grade device thus is not designed or intended for diagnosis of any cardiac conditions or to be a replacement for any type of ECG equipment. Interpretations made by this device are potential findings, not a complete diagnosis of cardiac conditions. All interpretations should be reviewed by a medical professional. Always consult your physician before using Smart module monitor or you begin or modify any exercise program.

Safety Instructions

Warning: If possible hazardous situations below are not avoided, user injury or even a fatal accident may occur.

When the module is not use, wipe with soft, lint-free or microfiber cloth if necessary. DO NOT wash Smart Module, it is not waterproof.

FAQ

- Mobile phone cannot be connected to the Watch.
 1. It is recommended to update APP to the latest version.
 2. It is recommended to quit all APPs, reactivate the phone Bluetooth and re-connect.
 3. Confirm that system of the phone is Android 7 or iOS 12 and above.
- The Watch has no message or call reminders.
 1. It is required to turn on smart reminder function and call reminder function in APP and synchronize to the Watch.
 2. The Watch should be paired with mobile phone through Bluetooth.
 3. It is required to keep Watch Bluetooth under normal connection.

- Bluetooth disconnects frequently.
 1. Relatively long distance between the Watch and the phone may cause Bluetooth disconnection, and the effect of Bluetooth connection over 7 meters will be obviously weak.
 2. Shielding between the Watch and the phone will affect the connection, and human body and metal jewelry will interfere Bluetooth connection signal.
 3. Please confirm that Bluetooth function of the phone is normal.
- More detailed FAQs can be obtained through help and feedback in APP.

Safety and Product Information Notes

Warning

Battery Warning

Do not disassemble, bore or damage the battery. Do not disassemble the built-in batteries of non-replaceable battery devices. Do not use sharp objects to remove the battery.

Health Warning

If you are wearing a pacemaker or other implanted electronic devices, please consult your doctor before using the heart rate monitoring strap.

The watch's optical heart rate sensor glows green and flashes. If you suffer from epilepsy or are sensitive to blinking light sources, please consult your physician if you can wear this product.

The device tracks your daily activities through sensors. These data are intended to tell you about your daily activities such as steps, sleep, distance, heart rate and calories, but may not be completely accurate.

The device, accessories, heart rate sensors and other relevant data are designed for entertainment and fitness, not for medical purposes. They are not applicable to the diagnosis, monitoring, treatment or prevention of any diseases or symptoms. The heart rate data is for reference only. We are not responsible for any consequences caused by any data deviation.

Cycling Warning

If you are wearing a pacemaker or other implanted electronic devices, please consult your doctor before using the heart rate monitoring strap.

Notes:

Device data should be synchronized once every seven days to avoid data loss.

The device has no waterproof effect on seawater, acidic and alkaline solution, chemical reagent and other corrosive liquids. The damage or defect caused by misuse or improper use is beyond the warranty scope.

The device supports the use under cold shower or swimming excluding diving.

- In daily use, the device should be avoided from wearing too tight. Please keep the parts where the device touches the skin dry.
- During heart rate detection, please keep your arm stand still.

The device meets the EU ROHS criterion.
Please refer to IEC 62321, EU ROHS
Directive 2011/65/EU and revised directive.

FCC ID: 2AV4M-ECG

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interferences in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE

DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately. The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points. With this little personal effort, you contribute to recycle valuable raw materials and the treatment of toxic substances.
