

The image shows the internal components of a mobile phone, laid out on a blue textured surface. A ruler is visible at the top and bottom for scale. The main component is a green printed circuit board (PCB) with a gold-colored metal frame. Key components include:

- Battery:** A large, rectangular, gold-colored battery is positioned in the center.
- PCB Components:** Various electronic components are mounted on the green PCB, including a camera lens, a microphone, and several integrated circuits.
- Connectors:** A USB connector is visible on the left side, and a SIM card slot is on the right.
- Labels:** A white label on the right side of the PCB contains the following text:
  - X0310
  - MIL W00A
  - 178187771
  - SLI0200000894
  - 94V-0 E170988
  - TECH2V08035758
  - 5.3

Secondary supply without eSIM
