Requesting permissive change

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for
FCC ID: **2AVDZEM91**, Original grant date: **July 27, 2022**

The major change filed under this application is :

1. The subject approved module is integrated in a new host (product: **Liveu net stream** Model: **Net Stream**).
2. SAR Testing is performed to demonstrate RF Exposure Compliance. The host device enables the TAS (Time average SAR) function.
3. Evaluations have been conducted to ensure compliance with EMC requirements.
4. The hardware design of this transmitter that may affect compliance is remained unchanged in this permissive change application.
5. LTE Band 30 is suspected to operate as RX-only, and 5GNR n41 is disabled via software. All other parameters remain unchanged for this permissive change application. Except for the change above, the design, hardware and implementation are exactly same with original.

Sincerely,

Name: Daniel Pisarski

Title: VP of Engineering

On behalf of: LiveU, Inc
