

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Solder Board-Component View 2	 A photograph of a small, irregularly shaped green printed circuit board (PCB) component. The component is populated with several surface-mount components, including a microcontroller, resistors, and a small connector. It is placed on a blue textured surface. A black ruler with white markings is positioned to the left and below the component for scale. The ruler shows measurements in millimeters, with the component's length being approximately 15 mm.
Solder Board-Component View 3	 A photograph of a small, circular gold-colored component, likely a coin cell battery, with two thin wires (one red, one black) soldered to its terminals. The component is placed on a blue textured surface. A black ruler with white markings is positioned to the left and below the component for scale. The ruler shows measurements in millimeters, with the component's diameter being approximately 10 mm.
