

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the exterior of a black, semi-circular electronic device (EUT) with its battery cover removed. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters (0 to 100) and millimeters (0 to 10). The device has a red button and a small circular port on its side. The battery cover is shown separately above the device.
EUT Housing and Board View 2	 A photograph showing the interior of the EUT housing. The green printed circuit board (PCB) is visible, featuring various electronic components such as resistors, capacitors, and integrated circuits. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters (0 to 100) and millimeters (0 to 10).

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is irregularly shaped and populated with various electronic components, including several black integrated circuits (chips), resistors, and capacitors. It is positioned on a blue textured surface. A black L-shaped ruler is placed around the component for scale, with white markings in millimeters. The ruler shows dimensions of approximately 100mm by 100mm.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the component from a different angle, highlighting the solder joints and the underside of the components. It is placed on the same blue textured surface with the same black L-shaped ruler for scale.
